Uponor's Annual Report 2021 consists of an Annual Review and a Sustainability Review, which are published as separate PDF documents and can be found on our website.

You are now reading the Annual Review 2021, which covers the Report by the Board of Directors, Financial Statements for 2021 and Auditor's report. The Annual Review also includes information for investors. Corporate Governance Statement and Remuneration Report are published as separate PDF documents on our website. The Sustainability Review describes Uponor's sustainability work in 2021.

This is voluntary published pdf report, so it does not fulfill the disclosure obligation pursuant to Section 7:5§ of the Securities Markets Act.

# ▶ Uponor in brief

We are rethinking water for future generations. Our offering, including safe drinking water delivery, energy-efficient radiant heating and cooling and reliable infrastructure, enables a more sustainable living environment.

Our key customer segments

**3,900**

employees on average in 2021

**€1.3**

billion in net sales in 2021

**~80**

countries where our products are sold

## CEO REVIEW

# Dear reader,

Year 2021 was a record year for Uponor – our net sales and operating profit reached an all-time high level. All three divisions grew double digits in sales – also thanks to robust demand in both Europe and the US. Our teams in the markets successfully mitigated the various impacts of the COVID-19 pandemic and implemented programmes to compensate for the extraordinary price increases and material shortages. The situation remains volatile with inflation at levels we have not seen for decades.

Building Solutions – Europe continued their strong performance and made a significant improvement in their profitability. During the past 24 months, the division has more than doubled their comparable operating profit – and in 2021 grew their business' net sales by 13%. The business benefited from improved processes, organic growth and innovations. In October, we completed the acquisition of Capricorn S.A., a Polish manufacturer of components for heating and sanitary installations. This acquisition complements our radiant heating and cooling product range and expands our European assembly network to meet the growing demand for prefabricated systems.

The Building Solutions – North America division reached an important milestone by achieving the \$100 million mark in operating profit. The division's net sales increased by 20.2%, despite the supply challenges. As demand continues to grow for our PEX-A pipes, we decided last summer to

expand our capacity in Minnesota which should be completed in 2022.

The Uponor Infra business was driven by stable demand. However, the price programmes we put in place in the second half of 2021 could not fully mitigate the rapidly growing material prices. On a five-year perspective, Uponor Infra has improved their margin and our team is very committed to enhancing operational efficiency and product mix towards higher margin systems and solutions.

In August 2021, I joined Uponor – a great Finnish brand with more than 100 years of experience and a leading position in core markets as well as a lot of potential to address the future megatrends. Uponor puts people first: the engagement levels are high, and our health and safety programmes resulted in a 33% reduction of the lost time incident frequency. A strong global team with excellent divisional operations will unlock the full potential. Sustainable solutions for heating and cooling as well as state of the art systems for safe drinking water address the megatrends of the next decades: decarbonization and energy efficient solutions as well as the growing scarcity of drinking water. Infrastructure investments will increase overall in Europe – and we are the leading brand in the Nordic markets, moving from a component manufacturer to a provider of design solutions.

We are currently finalising our refined strategy to

accelerate profitable, sustainable growth. We will strengthen our capabilities and capacity to develop future technologies, innovate more energy-efficient products – and become a sustainability enabler for our customers.

The global call for reducing CO2 emissions will transform the construction industry in the next decade. Uponor is in a great position not only because sustainability is in the “Finnish DNA” of our company but Uponor has also been pro-active for years to build the foundation for now playing a leading role in our industry.

Uponor launched in 2021 its first product utilising renewable raw materials, Ultra Rib 2 Blue sewer pipe, and more is to come in 2022. For local and district heating networks, the new Ecoflex VIP combines the best heat loss performance for flexible foam insulation pipes on the market with outstanding flexibility. In April, we got approval from the Science Based Targets initiative for our new greenhouse gas emission reduction targets as one of the first companies in the building material industry.

I would like to thank all Uponorians for their great achievements in 2021. Many thanks also to our customers, shareholders and partners for their continuing trust in Uponor. We are looking forward to the next chapter of success for Uponor!

**Michael Rauterkus**  
President and CEO

# Why invest in Uponor

## The business: sustainable building and infrastructure solutions

- Safe drinking water delivery, energy-efficient heating and cooling, and reliable infrastructure continue to be essential needs in built environments
- Uponor mitigates the cyclical nature of construction industry by operating in European and North American markets and serving both new construction and renovation projects

## The company: An industry innovator building on a century of experience

- A leading supplier for residential and commercial construction for drinking water delivery and radiant heating and cooling systems; and a strong position in infrastructure piping systems around the Baltic Sea
- Established brand with a broad and loyal customer base
- Well maintained manufacturing network with capacity to grow
- Continuous material and production technology development to support operational efficiency
- Committed long-term key ownership with a clear understanding of the industry's dynamics

## Commitments:

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

### LONG-TERM FINANCIAL TARGETS (UPDATED ON 13 FEB 2019)

	Target	2021	2020	2019	2018	2017

# Information for shareholders

## Annual General Meeting

Uponor Corporation's Annual General Meeting will be held on 15 March 2022 at 15:00 EET.

The company's shareholders and their proxy representatives may attend the meeting and exercise their shareholder rights only by voting in advance and submitting counterproposals and questions in advance. Shareholders also have the opportunity to follow the Annual General Meeting as a webcast if the registration and advance voting has been completed. The webcast will be held only in Finnish.

Shareholders holding a Finnish book-entry account may register and vote in advance between 17 February 2022 and 8 March 2022 at 10:00 in the following ways:

- via Uponor's investor website at [uponorgroup.com/en-en/investors/governance/agm-2022](http://uponorgroup.com/en-en/investors/governance/agm-2022), which requires strong identification, or
- by email to [agm@innovatics.fi](mailto:agm@innovatics.fi), when also necessary documentation shall be attached to the email, such as signed voting form and possible proxy document and/or extract from trade register, or
- by mail addressed to Innovatics Oy, Yhtiökokous / Uponor Oyj, Ratamestarinkatu 13 A, 00520 Helsinki, when also necessary documentation shall be included, such as signed voting form and possible proxy document and/or extract from trade register.

Holders of nominee registered shares may register and vote in advance between 17 February 2022 and 10 March 2022 at 10:00.

## Payment of dividends

The Board of Directors proposes to the Annual General Meeting that a dividend of €0.67 per share be distributed for the financial period 2021. The dividend shall be paid in two instalments. The first instalment of €0.33 per share shall be paid to a shareholder registered as a shareholder in the shareholder register maintained by Euroclear Finland Ltd on the record date of the dividend payment on 17 March 2022. The payment date proposed by the Board for this instalment is 24 March 2022.

The second instalment of €0.34 per share shall be paid in September 2022. The second instalment shall be paid to a shareholder registered as a shareholder in the shareholder register maintained by Euroclear Finland Ltd on the dividend record date, which, together with the payment date, shall be decided by the Board of Directors in its meeting scheduled for 13 September 2022. The dividend record date for the second instalment would be 15 September 2022 and the dividend payment date 22 September 2022.

# Review by the Board of Directors

## Markets

Early 2021, construction markets across the Group benefited from continued monetary and fiscal policies adopted by governments to combat the impacts of the pandemic. Increased disposable incomes and favourable borrowing rates led many consumers to seek out new housing or to invest in their existing properties, lifting real estate prices dramatically and spurring the initiation of new residential developments. The significant increase in residential demand, however, worsened an already challenging labour market for skilled construction workers, led to disruptions in the availability of materials, and drove up material costs. As the year came to a close, residential demand remained solid, but supply-side challenges appeared to limit the rate of growth. Meanwhile, non-residential building activity varied significantly by country and building segment, with some segments showing signs of improvement and others continuing to slow.

In North America, construction activity in the U.S. was solid overall. The residential segment exhibited especially strong growth, with spending on both new homes and home renovation growing at a double-digit pace. Although homebuilders remained very upbeat throughout the year, progressively increasing challenges in material and labour availability led to significant inflation in construction costs and many builders reported project delays as the year progressed. Nonetheless, housing starts for the year were still at their highest level in 15 years. In the more diverse non-residential segment, improvements in some areas, such as commercial property developments, were offset by continued weakness in other areas, such as lodging. In Canada, the housing market was also very strong, logging the highest number of housing starts seen in the last 45 years.

In Uponor's largest Central European market, Germany, building activity in the residential segment, both new build and renovation, continued at a relatively high level. While builders reported strengthening confidence throughout most of the year, building activity was dampened by project delays caused by a continued lack of skilled labour and, as the year progressed, increasingly challenging material availability issues. Meanwhile, spending on non-residential projects contracted further, with notable slowing in, for example, commercial and industrial buildings. In the Netherlands, construction activity in both the residential and non-residential segments grew from the previous year.

In the Nordic region, all countries witnessed a significant increase in new residential construction, with low double-digit growth rates, as well as improved residential renovation activity. Clear differences were visible, however, in the non-residential and civil engineering markets. Non-residential construction expanded meaningfully in Sweden, despite continued slowing in commercial projects, while spending in other building types was largely flat. In civil engineering, Norwegian and Swedish municipalities increased investments in transport, telecommunications and water works, while the situation in Finland and Denmark was more stable.

Construction markets in Southwest Europe improved significantly from the weak performance in 2020, with residential markets making up a large portion of the losses from the previous year, but non-residential spending considerably weaker.

## Net sales

Uponor's net sales were €1,313.2 (1,136.0) million, a growth of 15.6% year-over-year, making the year 2021 the strongest in Uponor's history. Negative currency impact totalled €5.0 million, mainly due to USD, RUB and PLN, bringing the 2021 full-year organic growth to 16.0% in constant currency terms.

Building Solutions – Europe's net sales were €564.2 (499.5) million, a growth of 13.0% year-over-year. Net sales and volumes increased in all markets, driven by growth in Germany, the Netherlands and Sweden. Net sales also grew in all product categories.

Building Solutions – North America's net sales were €467.5 (389.1) million, a growth of 20.2%. In U.S. dollar terms, the growth was 23.8%. The good progress was driven by volume growth and price increases in both the U.S. and Canada.

Uponor Infra's net sales were €286.8 (252.0) million, a growth of 13.8%. Net sales increased in Finland, Norway and Sweden, in particular. Net sales increased also in designed solutions sales.

Within the product categories, the share of plumbing solutions represented 55% (55), indoor climate solutions 23% (23) and infrastructure solutions 22% (22) of Group net sales.

Measured in terms of reported net sales, and their respective share of Group net sales, the 10 largest countries were as follows: the U.S. 30.9% (30.4), Germany 11.0% (11.9), Finland 10.0% (11.1), Sweden 9.5% (9.0), Canada 4.8% (4.0), Denmark 4.5% (4.5), the Netherlands 4.3% (4.4), Poland 3.1% (3.4), Spain 2.9% (3.2) and Norway 2.2% (2.8).

### Breakdown of net sales by division (January–December):

M€	1-12/ 2021	1-12/ 2020	Change
Building Solutions – Europe*	564.2	499.5	13.0%
Building Solutions – North America	467.5	389.1	20.2%
(Building Solutions – North America, (M\$))	552.4	446.3	23.8%
Uponor Infra	286.8	252.0	13.8%
Eliminations	-5.3	-4.5	
<b>Total</b>	<b>1,313.2</b>	<b>1,136.0</b>	<b>15.6%</b>

\*Includes the net sales of Capricorn S.A. as of 1 Nov 2021

## Results and profitability

Uponor's full-year gross profit was €484.7 (429.4) million, a growth of €55.3 million. The gross profit margin decreased slightly and was 36.9% (37.8). Comparable gross profit was €484.8 (430.2) million, with a margin of 36.9% (37.9). The items affecting comparability were related to the operational excellence programme.

Comparable operating profit, i.e., excluding any items affecting comparability, was €160.5 (142.7) million, a growth of 12.5%. The total net amount of items affecting comparability was €6.4 (10.4) million and they were related to Uponor's operational excellence programme and M&A activities. During the comparison period, items affecting comparability were related to the operational excellence programme. Comparable operating profit margin was 12.2% (12.6).

Operating profit was €154.1 (132.3) million. The operating profit margin was 11.7% (11.6).

Building Solutions – Europe's operating profit was €65.9 (45.1) million. Comparable operating profit was €72.0 (55.1) million. The items affecting comparability were mainly related to the operational excellence programme. The improvements in operating profit were driven by higher volumes, price increases and savings generated by the operational excellence programme. Additionally, the favourable sales mix improved profitability.

Building Solutions – North America's operating profit was €84.5 (74.5) million. Strong operational performance, higher volumes and price increases all contributed to the increase in operating profit, despite the growth in input and freight costs.

Uponor Infra's operating profit was €16.2 (19.0) million. Comparable operating profit was €16.3 (19.0). The items affecting comparability were related to the operational excellence programme. The profitability decrease was due to higher input costs, which were not fully compensated by price increases.

### Operating profit by division (January–December):

M€	1–12/ 2021	1–12/ 2020	Change
Building Solutions – Europe*	65.9	45.1	46.1%
Building Solutions – North America	84.5	74.5	13.4%
(Building Solutions – North America, (M\$))	99.8	85.5	16.8%
Uponor Infra	16.2	19.0	-14.6%
Others	-9.5	-4.7	
Eliminations	-3.0	-1.6	
<b>Total</b>	<b>154.1</b>	<b>132.3</b>	<b>16.5%</b>

### Comparable operating profit by segment for 1 January–31 December 2020:

M€	1–12/ 2021	1–12/ 2020	Change
Building Solutions – Europe*	72.0	55.1	30.6%
Building Solutions – North America	84.7	74.6	13.5%
(Building Solutions – North America, (M\$))	100.0	85.6	16.9%
Uponor Infra	16.3	19.0	-14.1%
Others	-9.5	-4.4	
Eliminations	-3.0	-1.6	
<b>Total</b>	<b>160.5</b>	<b>142.7</b>	<b>12.5%</b>

\*Includes the operating profit of Capricorn S.A. as of 1 Nov 2021

Uponor's net financial expenses were €7.9 (6.3) million. In 2021, net currency exchange differences totalled €-3.2 (-2.7) million.

The share of the result in associated companies and joint ventures, €-6.4 (-4.2) million, is mainly related to Uponor's 50% share in the joint venture company, Phyn. Uponor announced on 13 August that the company had sold its share in Phyn to Belkin International, Inc.

Profit before taxes was €139.8 (121.8) million. The effective tax rate was 26.0% (21.1%). In 2020, the effective tax rate was decreased due to the utilisation of unrecognised tax losses and a transfer pricing agreement reached between tax authorities. Income taxes totalled €36.4 (25.7) million.

Profit for the period totalled €103.4 (96.1) million. Return on equity was 22.9% (24.3).

Return on investment was 24.7% (21.8). Return on investment, adjusted for items affecting comparability, was 25.3% (23.6).

Earnings per share were €1.33 (1.21). Equity per share was €5.72 (4.89). For other share-specific information, please see the Tables section.

Cash flow from operations decreased and was €139.2 (207.5) million. Cash flow declined from the previous year mainly driven by increased net working capital. Cash flow before financing was €75.0 (170.7) million.

## Investment, research and development, and financing

Gross investment in fixed assets totalled €45.5 (30.2) million. Net investments totalled €44.7 (29.5) million. Uponor's investments in 2021 were related to capacity expansions mainly in the U.S. as well as efficiency improvements and maintenance at manufacturing facilities globally.

Research and development costs were €20.7 (22.5) million, or 1.6% (2.0) of net sales. The main research and development activities were related to the completion and launch of new tools for cold expansion fittings done with our partner, various prefabricated solutions, as well as completion of the development project for a new material for engineered polymer fittings. In addition, the development of new pipe extrusion technologies and processes continued.

Uponor has two bilateral long-term loans of €40 million and €30 million, both of which will mature in January 2026. As back-up funding arrangements, Uponor has four €50 million committed bilateral revolving credit facilities in force, totalling €200 million, of which €50 million is maturing in 2022 and the rest in 2023–2026; none of these were used during the reporting period.

For short-term funding needs, Uponor's main source of funding is its domestic commercial paper programme, totalling €150 million, none of which was outstanding on the balance sheet date. Available cash pool limits granted by Uponor's key banks amounted to €35 million, none of which were in use on the balance sheet date. At the end of the year, Uponor had €98.1 (138.0) million in cash and cash equivalents.

Net interest-bearing liabilities were €20.9 (15.1) million. The solvency ratio was 50.2% (48.7) and gearing was 4.3% (3.6), with a four-quarter rolling gearing of 1.7% (28.6), below the range of 40–80% set in the company's financial targets.

## Events during the period

On 30 April, Uponor received an approval from the Science Based Targets initiative for its new greenhouse gas emission reduction targets, which are based on the Paris Climate Agreement and aim to limit the global temperature rise to 1.5°C.

On 13 August, Uponor announced that the company and Belkin International, Inc. have signed a share purchase agreement for the sale of Uponor's shares in Phyn, a water sensing and conservation technology company, to Belkin. Phyn was founded in 2016 as a joint venture between Uponor and Belkin, with both owning 50% of the company. The parties have agreed not to disclose the purchase price.

On 23 August, Uponor announced that the company and the owners of Capricorn S.A. have signed a share purchase agreement for all outstanding shares in Capricorn S.A., a Polish manufacturer of components for heating and sanitary installations. The closing of the acquisition was announced on 29 October.

On 7 September, Uponor announced its collaboration with Borealis, one of the world's leading providers of advanced and circular polyolefin solutions. The parties have been working together to launch Uponor Infra's first product, the Ultra Rib 2 Blue sewer pipe, utilising renewable raw materials and with up to 70% lower carbon footprint.

## Operational excellence programme

Uponor updated the savings target and schedule of its operational excellence programme on 5 May 2021. The updated annual savings target of the programme is €25 million by the end of the first half of 2022. The estimated one-time costs of the whole programme are around €22 million.

During 2021, the programme generated savings of approximately €13 million, which brings the total generated savings under the programme up to approximately €21 million by the year end. The programme is expected to reduce approximately 200 FTEs. By the end of year 2021, the reduction was around 160 FTEs since the beginning of the programme.

Since the launch of the programme, a total of €17.2 million in one-time costs have been recorded as items affecting comparability. Of that amount, €5.4 million was recorded in 2021.

Uponor first announced the operational excellence programme in October 2019 with an annual savings target of €20 million by the end of 2021 and around €20 million in one-time costs.

## The impacts of COVID-19

The outlook for 2022 continues with uncertainties around the next phases of the COVID-19 pandemic even though good progress has been made in vaccination coverage in Uponor's operating area. The prevailing situation poses short-term challenges to Uponor's supply chain and own production, which may cause supply shortages and delays in deliveries. Continued uncertainty among businesses may negatively affect the initiation of new construction and renovation projects, though the relative impact and timing of this effect is uncertain.

Supported by its strong balance sheet and cash position, Uponor is in a solid financial position to face the possible next phases of the pandemic and their implications. The pandemic has not had an impact on the valuation of Uponor's assets.

## Resolutions of the Annual General Meeting 2021

Uponor's Annual General Meeting was held in Helsinki, Finland, on 18 March 2021. The AGM adopted the financial statements and the consolidated financial statements for 2020 and released the Board members and the President and CEO from liability. The AGM approved the proposed dividend of €0.57 per share for 2020, and its payment in two instalments. The first instalment of €0.28 per share was paid on 22 March 2021. The second instalment of €0.29 per share was paid on 23 September 2021.

Existing Board members Annika Paasikivi (Chair), Pia Aaltonen-Forsell, Johan Falk, Markus Lengauer, Casimir Lindholm and Michael G. Marchi were re-elected. The AGM elected Annika Paasikivi as Chair of the Board.

KPMG Oy Ab, a company of Authorised Public Accountants, was elected as the auditor of the company for 2021.

The Board of Directors was authorised to resolve on the repurchase of no more than 3,500,000 of the company's own shares, amounting in total to approximately 4.8% of the total number of the shares of the company at the date of the general meeting. These shares will be bought back using distributable earnings from unrestricted equity. The authorisation is valid until the end of the next annual general meeting, however, no longer than 18 months from the date of the general meeting.

The Board of Directors was authorised to resolve on issuing a maximum of 7,200,000 new shares or transferring the company's own shares, amounting in total to approximately 9.8% of the total number of the shares of the company. The Board of Directors is authorised to resolve on all the conditions of the issuance of shares. This authorisation is valid until the end of the next annual general meeting, however, no longer than 18 months from the date of the general meeting.

Further details regarding the Annual General Meeting are available at [uponorgroup.com/en-en/investors/governance/agm-2022](https://uponorgroup.com/en-en/investors/governance/agm-2022).

## Governance

Uponor prepares a separate corporate governance statement and a remuneration report for governing bodies, which are available on the company's website at [uponorgroup.com](https://uponorgroup.com).

Uponor complies with the Finnish Corporate Governance Code 2020 issued by the Securities Market Association, with the exception of recommendation 15. According to recommendation 15, the Board of Directors' committees should have at least three members each. The Personnel and Remuneration Committee, however, has two members instead of the three stated in the recommendation. Uponor considers sufficient expertise to have been secured for the Personnel and Remuneration Committee on the basis of two members, and the Committee may also obtain views from outside the Committee. The Committee acts as a preparatory and assisting body for the Board of Directors, and all essential matters relating to remuneration shall be dealt with by the Board of Directors.

## Personnel

At the end of the year, the Uponor Group had 4,234 (3,658) employees, in full-time-equivalent (FTE) terms. This is 576 more than at the end of 2020. The average number of employees (FTE) for the year was 3,871 (3,708). The increase was driven by the acquisition of Capricorn S.A. as well as new hires to support growth in all of Uponor's divisions.

The geographical breakdown of the Group's personnel (FTE) was as follows: the U.S. 24% (23), Germany 19% (23), Finland 15% (17), Poland 15% (7), Sweden 13% (15), Denmark 2% (3), Spain 2% (2), Russia 2% (2), Canada 1% (1), France 1% (1) and other countries 5% (6).

A total of €278.8 (256.7) million was recorded in salaries, other remunerations and employee benefits during the financial period.

## Changes in the Executive Committee

On 12 February, Uponor announced that its President and CEO, Jyri Luomakoski, will leave his position on 20 August 2021.

On 5 May, Uponor's Board of Directors appointed Michael Rauterkus as President and CEO of Uponor Group and Chairman of the Executive Committee as of 21 August 2021.

On 4 November, Uponor announced that Uponor's CFO and a member of Uponor's Executive Committee, Minna Yrjönmäki, will leave her position as of 31 December 2021. Markus Melkko was appointed CFO and a member of Uponor's Executive Committee as of 1 January 2022.

## Non-financial information

This section describes Uponor's sustainability activities as required in Chapter 3a of the Finnish Accounting Act on non-financial information. More information on sustainability and the value creation model can be found in the Sustainability Report 2021 (which will be published latest during the week 9/2022).

### Uponor's business model and value creation

Operating in an industry with a strong influence on sustainable living, Uponor's vision is to become a recognised leader in sustainable building and infrastructure solutions.

Uponor's materiality analysis together with four selected UN Sustainable Development Goals; clean water and sanitation (6), decent work and economic growth (8), responsible production and consumption (12) and climate action (13), form the framework for Uponor's sustainability agenda. The selected focus areas are those that have the greatest impact potential on the business, including major opportunities, and are aligned with Uponor's business scope. The KPIs are reported at the end of this section.

Uponor is organised into three divisions (Building Solutions – Europe, Building Solutions – North America and Uponor Infra) according to business responsibility and proximity to customers. Common people, brand, sustainability, IT and R&D topics are managed at Group level in order to benefit from global presence and maximise the return from long-term R&D projects.

### Operating principles and due diligence processes

Uponor complies with local laws and regulations, and the company's Code of Conduct and other Group policies form the foundation for its operating principles. Uponor is also a signatory of the UN Global Compact and has committed to the Science Based Targets initiative.

## Environment

Uponor considers the environmental aspects of its product offering and continuously aims to reduce the overall impact of its business operations. Uponor has 17 manufacturing facilities in Europe and North America, and their key environmental impacts are greenhouse gas emissions, waste and water usage.

Uponor pursues an environmental management system according to the standard ISO 14001 and an energy-management system compliant with the standard ISO 50001 in order to reach its environmental and energy targets systematically. In 2021, 15 manufacturing facilities were ISO 14001 certified and 10 ISO 50001 certified. Uponor's environmental topics are covered by its Quality Environmental Management Policy. Internal and external audits are conducted on a yearly basis to ensure enforcement of the Quality Environmental Management Policy.

In addition, Uponor is developing innovations related to recyclable packaging systems and alternative resins, among others, to reduce its environmental impacts. In 2021, the company launched its first products utilising renewable raw materials.

## Personnel and social matters

Uponor emphasises equal treatment and promotes employee safety and well-being. The health and safety of employees is a management priority, and Uponor is striving towards zero accidents by 2025. Employee health and safety topics are covered by the Quality Environmental Management Policy.

Uponor's people strategy is based on three main themes: leadership, talent and culture. With the people strategy, the company aims to ensure that it attracts and retains the right talent to support Uponor's business goals under good leadership and a high-performance culture.

Uponor conducts a yearly employee engagement survey to get feedback from its employees on employee-related matters.

## Human rights

Uponor respects human rights as defined, for example, in the United Nations' Universal Declaration of Human Rights. Uponor is a responsible employer and supports equal opportunities for its employees. No discrimination is allowed. Uponor does not allow child or forced labour or any other activities that are against basic labour rights across its value chain.

Uponor has a Supplier Policy that aims to ensure that its suppliers also meet Uponor's ethical, social, environmental and quality standards, as well as comply with all local laws and regulations. In 2022, Uponor will launch a new Supplier Code of Conduct that will cover these topics.

Through Uponor's whistle-blower channel, its employees and external stakeholders have the opportunity to report non-compliant behaviour, even anonymously if they wish.

## Anti-corruption and bribery

Uponor has zero tolerance for corruption and bribery. Uponor's Fraud Prevention Policy sets out the company's attitude towards fraud and its intention to prevent it, as well as the responsibilities of all Uponor employees regarding fraud prevention.

## Results of compliance with the operating principles

### Environmental matters

Uponor continued to develop its product portfolio and help its customers to reduce their environmental impacts. Its first Environmental Product Declarations, which provide full transparency on the environmental footprint of the product, were published in 2021 and this work continues in 2022.

Uponor strives to reduce its greenhouse gas emissions and waste. In April 2021, Uponor received an approval from the Science Based Targets initiative for its new greenhouse gas emission reduction targets. In 2021, Uponor's scope 1 and 2 GHG emissions in total decreased. The decrease was driven by change to green electricity in Estonia and Poland. In addition, the share of purchased green electricity in the U.S. increased. The total amount of waste and water consumption increased mainly due to increased production volumes.

### Social and employee related matters

Safety is Uponor's top priority, and the COVID-19 pandemic emphasised its importance even further. Keeping employees safe, introducing new digital ways of working and promoting a flexible hybrid working model remained the main topics on the management's agenda during 2021.

Uponor's lost time injury frequency improved to 4.8 (7.5), driven by good progress at Uponor Infra, in particular. Uponor continues to develop its internal trainings, ways of working and enhanced processes and safety equipment. In 2022, Uponor will launch its global safety forum to share best practices and implement global safety guidelines for all manufacturing sites.

In 2021, Uponor provided a selection of different virtual trainings and e-learning courses to its employees varying from developing leadership skills to maintaining well-being. Uponor also started to build a global approach for how to enhance diversity, equity and inclusion in its company culture.

Uponor conducted a Group-wide employee engagement survey during autumn 2021. The response rate was 84% (85), and the Employee Net Promoter Score (eNPS) was 41. According to employees, Uponor's strengths as an employer are the physical work environment, remote work practices and possibilities to pursue personal development.

### Human rights, anti-corruption and bribery

Uponor started a project to further improve the transparency of its supply chain and created a Supplier Code of Conduct in 2021. The new policy will be implemented throughout the supply chain during 2022. Uponor is currently building a sustainability audit programme and aims to roll it out by the end of 2022.

Uponor updated its Code of Conduct in 2021. New e-learning material concerning the policy is being created and the company aims to launch the e-learning courses to its employees during the first quarter of 2022.

No incidents related to human rights violations, corruption or bribery were detected in Uponor's operations through daily management processes, internal audit investigations or the whistle-blower channel.

## Main risks related to non-financial themes

### Environmental matters

Non-compliance with local legislation and regulations may lead to fines as well as reputational and business risk to Uponor. Uponor mitigates environmental risks by means of training and implementing ISO 14001, ISO 9001 and ISO 50001 processes and certifications in its manufacturing facilities.

Uponor has identified that climate change can cause transition risks to the company. As Uponor's manufacturing facilities are located inland and further away from areas which are more exposed to extreme weather conditions, the company has no material physical risks related to climate change.

### Policy or legal risks

As Uponor's main raw material is plastic, produced using fossil fuel, i.e. crude oil, tightening regulations and/or taxation around fossil fuels can increase Uponor's operational costs and set new requirements for Uponor's products. To mitigate this risk, Uponor's R&D actively participates in projects seeking alternatives for fossil oil-based resins. Uponor also participates in different trade organisations' work and aims to influence local and regional decision-makers in questions related to energy, health and water usage.

### Market and reputation risk

Uponor's customers may start to prefer products that are produced from renewable and recycled raw materials. If Uponor fails to introduce new materials on time, the company can lose market share. If Uponor continues to use fossil-based resins while competitors move to other options, Uponor and its brand may suffer reputational damage.

### Social and employee related matters

Health and safety-related issues may cause risks to Uponor. Uponor may also have difficulties in attracting and retaining talent in the organisation.

Uponor mitigates health and safety-related risks by means of internal training, near-miss reporting and continuous improvement of internal processes. In addition, Uponor invests in building an attractive corporate culture and employer brand, as well as enabling diverse career paths.

### Human rights

Possible violation of human rights and employee rights may impact Uponor's reputation and business opportunities.

Uponor mitigates risks by developing internal training and processes, as well as carrying out supply chain audits. Uponor will implement its new Supplier Code of Conduct to its direct suppliers during 2022. In addition, an anonymous whistle-blower channel is in use. The whistle-blower channel was opened to external stakeholders in 2021.

### Anti-corruption and bribery

Unethical behaviour by Uponor's employees or partners may negatively impact Uponor's reputation and business opportunities.

Uponor mitigates these risks by means of a careful recruitment process, internal training, as well as training and auditing partners. In addition, the company has an internal anonymous whistle-blower channel in use for all stakeholders.

## Key non-financial performance indicators

Measure	Unit	2021	2020
Total energy consumption	1,000 MWh	227.0	206.6
Raw material used	1,000 tonnes	163.1	157.1
Water consumption	1,000 m <sup>3</sup>	146.9	139.0
Total GHG emissions (Scope 1)	1,000 tonnes CO <sub>2</sub> e	6.3	6.4
Total GHG emissions (Scope 2)	1,000 tonnes CO <sub>2</sub> e	4.8	14.5
Total waste	1,000 tonnes	18.0	15.9
Incident rate (LTIF)	per million work hours	4.8	7.5
Share of white-collar employees participating in Code of Conduct e-learning	%	93.2	95.2

Some figures for previous years have changed due to improved accuracy in data collection and reporting. Uponor reports its scope 2 emissions using market-based methodology. Market-based scope 2 emissions are based on emission factors provided by energy suppliers, and on country-specific emission factors (i.e. GHG Protocol – IEA 2021) used as supplementary if supplier-specific data is not available. For reference, location-based scope 2 emissions were 67.2 (1,000 tonnes CO<sub>2</sub>e) in 2021. Biogenic emissions were 0.06 (1,000 tonnes CO<sub>2</sub>e) in 2021. Uponor will update its GHG emissions reporting principles and methodology during 2022. The environmental indicators include all Uponor's manufacturing facilities with the exception of Capricorn S.A., which was acquired in October 2021. The social indicators include all Uponor operations. The total working hours are calculated based on the combined FTE of all active employees and the average yearly working hours in Uponor's biggest operating countries.

## Alignment with the EU taxonomy

Figures are based on Uponor's current understanding and interpretation of the Taxonomy regulation, and subject to any changes in official reporting and interpretation guidance from the European Commission.

	Total amount, M€	Eligible activities	Non-eligible activities
Net sales	1,313.2	25%	75%
Operational expenses	1,159.9	19%	81%
Capital expenditure	45.5	18%	82%

## Short-term risks and uncertainties

Changes in the global economy and financial markets may have a negative impact on Uponor's operations, performance, financial position and sources of capital.

Risks related to the COVID-19 pandemic can be found in a separate section: The impacts of COVID-19.

Demand for Uponor's products depends on business cycles in the construction sector. Uponor mitigates this risk by distributing its business to two main geographical areas: Europe and North America. In addition, Uponor has three business areas: plumbing solutions, indoor climate solutions and infrastructure solutions. Uponor's products are used in both new construction projects and renovation projects, and in the latter the demand is usually more stable than in the more cyclical new construction.

Compliance with laws and regulations is top priority within Uponor. Non-compliance with legislation and regulations may lead to fines as well as reputational and business risk to Uponor. Uponor can be exposed to different judicial proceedings. In autumn 2021, certain product-related lawsuits with class allegations were filed against Uponor in two states in North America. The cases are still in their early stages, and it is uncertain if the classes will be certified and what impact, if any, the lawsuits will have on Uponor. Uponor mitigates its product liability-related risks through local and centralised insurance programmes at Group level.

Uponor's ongoing operational excellence programme aims to achieve annual savings of €25 million by the end of the first half of 2022. The company is exposed to a risk of capturing the savings within the planned timeline.

Digitalisation, emerging technologies and capabilities related to those areas are needed to build new business opportunities for Uponor. In addition, digitalisation and smart solutions expose the company to cyber risks.

Uponor's ability to attract and retain talent to drive change are key to the company's future success. Uponor manages this risk by building its employer brand and helping its current employees to develop, for example, their leadership skills.

In most of the countries where Uponor operates, there are local regulations and industry standards with which Uponor must be in compliance for many of the products in its portfolio of offerings. The company has rigid processes in place whereby it closely monitors regulations and standards which pertain to both its products and raw materials. Changes in this regulatory environment can result in additional expenses to Uponor to ensure its products remain in compliance with the updated regulations and standards.

The prices of raw materials used in the manufacture of Uponor's products are susceptible to change, driven by several market factors including petrochemical and metal product price fluctuations, supply capacity and market demand, among others. In recent years, Uponor has been able to pass most of the effects of such fluctuations onto its selling prices with a reasonable delay.

Uponor has 17 manufacturing facilities in Europe and North America, which exposes the company to possible environmental risks. Uponor operates under an ISO 9001 quality management system and an ISO 14001 environmental management system, which enhance quality, production safety, environmental law compliance and productivity while reducing the environmental impact and risks related to Uponor's operations.

Several factors, including disturbances in the supply chain and IT systems as well as natural disasters, can pose a business continuity risk to Uponor. Uponor mitigates the risk with comprehensive business continuity planning and management.

The international nature of its operations exposes the company to currency risks associated with various currencies. Approximately 60% of Uponor's net sales were generated in currencies other than the euro. Correspondingly, a major part of expenses associated with these net sales were also denominated in the same local currencies, markedly decreasing the associated currency risks.

A more detailed risk analysis can be found from [www.uponorgroup.com](http://www.uponorgroup.com) > Investors > Uponor as an investment.

## Share capital and shares

In 2021, Uponor's share turnover on Nasdaq Helsinki was 20.9 (28.8) million shares, totalling €459.2 (361.2) million. The share quotation at the end of 2021 was €20.94 (18.16), and the market capitalisation of the shares was €1,533.0 (1,329.4) million.

At the end of the year, there were a total of 19,071 (17,834) shareholders. Foreign shareholding in Uponor accounted for 29.4% (28.7) of all shareholdings in the company at the end of the reporting period. More detailed information is available in the financial statements.

In 2021, Uponor Corporation's share capital totalled €146,446,888 and the number of shares stood at 73,206,944; there were no changes during the year.

### Treasury shares

At the end of the year, Uponor held 634,206 of its own shares, representing approximately 0.87% of the company's shares and voting rights.

### Management shareholding

At the end of the year, the members of the Board of Directors and the President and CEO, along with corporations known to the company and in which they exercise control, held a total of 89,323 Uponor shares (117,922 shares). These shares accounted for 0.12% of all shares and votes in the company.

### Share-based incentive programme

The Board of Directors has resolved on several long-term incentive programmes for key management in the last few years. Details of the plans can be found from [www.uponorgroup.com](http://www.uponorgroup.com) > Investors > Remuneration.

In December 2021, the Board of Directors of Uponor Corporation resolved to continue the key management Performance Share Plan mechanism, originally decided on by the Board in 2014. Approximately 50 Group key managers, including the members of the Executive Committee, belong to the target group covered by the new plan. The potential reward based on the 2022–2024 plan will be paid in 2025, partly in company shares and partly in cash.

## Notices under the Securities Market Act 9:5

On 22 June, Uponor received a notification from Nordea Funds Ltd., in accordance with the Finnish Securities Market Act Chapter 9, Section 5. According to the notification, Nordea Funds Ltd.'s holdings had changed to below 5.0% of the share capital and to 5.06% of the voting rights in Uponor, on 21 June 2021.

On 23 September, Uponor received a notification from Nordea Funds Ltd., in accordance with the Finnish Securities Market Act Chapter 9, Section 5. According to the notification, Nordea Funds Ltd.'s holdings decreased below 5.0% of the voting rights in Uponor, on 22 September 2021.

On 7 October, Uponor received a notification from Nordea Funds Ltd., in accordance with the Finnish Securities Market Act Chapter 9, Section 5. According to the notification, Nordea Funds Ltd.'s holdings exceeded 5.0% of the voting rights in Uponor, on 6 October 2021.

On 9 December, Uponor received a notification from Nordea Funds Ltd., in accordance with the Finnish Securities Market Act Chapter 9, Section 5. According to the notification, Nordea Funds Ltd.'s holdings exceeded 5.0% of the shares and voting rights in Uponor, on 8 December 2021.

## Events after the reporting period

On 10 January 2022, Uponor announced that Bill Gray, President, Building Solutions – North America and a member of Uponor's Executive Committee will leave his position on the Executive Committee and the President as of 10 January 2022. John Reutter, Vice President, Finance, Building Solutions – North America was appointed interim President, Building Solutions – North America and an interim member of Uponor's Executive Committee as of the same day.

## Short-term market outlook

Uponor expects that the trends witnessed in the last quarter of 2021 will continue, with residential markets remaining upbeat, despite their prolonged period of growth and increased borrowing costs in some markets, and non-residential markets stabilising further. Nonetheless, visibility remains limited and uncertainty around forecasts remains significant as supply chain and labour challenges persist.

## Guidance for 2022

Excluding the impacts of currencies, Uponor expects its net sales and comparable operating profit to increase from 2021.

(Increase indicates a growth of 2.5% or more.)

Notes to the table:

1) Proposal of the Board of Directors

The average number of shares is adjusted with treasury shares.

# Definitions of key ratios

Return on Equity (ROE), %	= $\frac{\text{Profit before taxes} - \text{taxes}}{\text{Total equity, average}} \times 100$	Effective dividend yield	= $\frac{\text{Dividend per share}}{\text{Share price at the end of financial period}} \times 100$
Return on Investment (ROI), %	= $\frac{\text{Profit before taxes} + \text{interest and other financing costs}}{\text{Balance sheet total} - \text{non-interest-bearing liabilities, average}} \times 100$	Price – Earnings ratio (P/E)	= $\frac{\text{Share price at the end of financial period}}{\text{Earnings per share}}$
Solvency, %	= $\frac{\text{Total equity}}{\text{Balance sheet total} - \text{advance payments received}} \times 100$	Market value of shares	= $\text{Number of shares at the end of financial period} \times \text{last trading price}$
Gearing, %	= $\frac{\text{Net interest-bearing liabilities}}{\text{Total equity}} \times 100$	Average share price	= $\frac{\text{Total value of shares traded (€)}}{\text{Total number of shares traded}}$
Net interest-bearing liabilities	= $\text{Interest-bearing liabilities} - \text{cash, bank receivables and financial assets excluding restricted cash}$	Gross profit margin	= $\frac{\text{Gross profit}}{\text{Net sales}} \times 100$
Earnings per share (EPS)	= $\frac{\text{Profit for the period attributable to equity holders of parent company}}{\text{Average number of shares adjusted for share issue in financial period excluding treasury shares}}$	Operating profit margin	= $\frac{\text{Operating profit}}{\text{Net sales}} \times 100$
Equity per share ratio	= $\frac{\text{Equity attributable to the owners of the parent company}}{\text{Number of shares adjusted for share issue at end of year excluding treasury shares}}$	Comparable gross profit	= $\text{Gross profit} - \text{items affecting comparability}^*$
Dividend per share ratio	= $\frac{\text{Dividend per share}}{\text{Earnings per share}} \times 100$	Comparable gross profit margin	= $\frac{\text{Gross profit} - \text{items affecting comparability}^*}{\text{Net sales}} \times 100$
		Comparable operating profit	= $\text{Operating profit} - \text{items affecting comparability}^*$
		Comparable operating profit margin	= $\frac{\text{Operating profit} - \text{items affecting comparability}^*}{\text{Net sales}} \times 100$

\*)Items affecting comparability are exceptional transactions that are not related to normal business operations. The most common items affecting comparability are capital gains and losses, inefficiencies in production related to plant closures, additional write-downs, or reversals of write-downs, expenses due to accidents and disasters, provisions for planned restructurings, environmental matters, penalties, and changes in legislation and legal proceedings. The Group's management exercises its discretion when taking decisions regarding the classification of items affecting comparability.

# Shares and shareholders

The volume of Uponor shares traded on the NASDAQ OMX Helsinki Exchange in 2021 totalled 20,980,881, valued at €459.2 million. The share closed at € 20.94 and the market capitalisation came to €1,533.0 million. The year-end number of shareholders totalled 19,071. Foreign ownership in the company accounted for 29.4 (28.7) per cent.

# Notes to the consolidated financial statements

## 1. Accounting principles

### Company profile

Uponor is an international industrial group providing building and municipal infrastructure solutions. Uponor Group's segment structure consists of the following three reporting divisions: Building Solutions – Europe, Building Solutions – North America and Uponor Infra. Its division business risks and profitability factors differ from each other with respect to the market and business environment as well as offering, services and customers. Group management, control and reporting structures are organised according to the business divisions.

Uponor Group's parent company is Uponor Corporation, domiciled in Helsinki in the Republic of Finland. Uponor Corporation is a public limited company and its registered address is:

Uponor Corporation  
P.O. Box 37 (street address: Äyritie 20)  
FI-01511 Vantaa  
Finland  
Business ID: 0148731-6  
Tel. +358 20 129 211

The Financial Statements will also be available on the company website at [investors.uponor.com](https://investors.uponor.com) and can be ordered from Uponor Corporation at the above-mentioned address.

At its meeting of 9 February 2022, Uponor Corporation's Board of Directors approved the publication of these financial statements. According to the Finnish Limited Liability Companies Act, the shareholders have the opportunity to approve or reject the financial statements at the Annual General Meeting to be held after their publication. Furthermore, the Annual General Meeting can decide on the modification of the financial statements.

### Basis of preparation

Uponor Group's consolidated financial statements have been prepared in compliance with the International Financial Reporting Standards (IFRS), including International Accounting Standards (IAS) and their SIC and IFRIC interpretations valid on 31 December 2021. In the Finnish Accounting Act and ordinances based on the provisions of the Act, IFRS refer to the standards and their interpretations adopted in accordance with the procedures as set in regulation (EC) No 1606/2002

of the European Parliament and of the European Council. The consolidated financial statements also include additional information required by the Finnish Accounting Act and the Limited Liability Companies Act. The consolidated financial statements are presented in millions of euros (M€) and are based on the historical cost convention, unless otherwise specified in the accounting principles section below. All figures presented have been rounded and consequently, the sum of individual figures might differ from the presented total figure. The percentages reported have been calculated from the exact figures and not from the rounded figures published.

### Use of estimates

The preparation of consolidated financial statements under IFRS requires the use of estimates and assumptions affecting the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities on the date of the financial statements, as well as the reported amounts of income and expenses during the report period. Although these estimates are based on the management's best view of current events and actions, the actual results may ultimately differ from these estimates. In addition, judgement is required in the application of accounting policies.

### Consolidation principles

The consolidated financial statements include the parent company, Uponor Corporation, and all companies in which the parent company holds more than half of the voting rights, either directly or through its subsidiaries. Subsidiaries include those companies in which Uponor Corporation has direct or indirect control of over 50 per cent of the voting rights or otherwise has power to govern the financial and operating policies, with the purpose of gaining financial benefit from their operations. Subsidiaries acquired or established during the year are included from the date the Group obtained control. Divested companies have been included up to their date of sale.

Intra-Group shareholdings are eliminated using the acquisition method. Accordingly, the assets and liabilities of an acquired company are measured at fair value on the date of acquisition. The excess of the acquisition cost over the fair value of the net assets has been recorded as goodwill. Based on the First-Time-Adoption of IFRS 1, any company acquisitions made prior to the IFRS transition date (1 January 2004) are not adjusted for IFRS, but book value according to Finnish Accounting Standards (FAS) is applied to goodwill amounts. Intra-Group transactions, receivables, liabilities, unrealised gains and dividends between Group companies are eliminated in the consolidated financial statements.

Associated companies are entities over which the Group has 20–50 per cent of the voting rights, or over which the Group otherwise exercises a major influence. Joint ventures are arrangements in which the Group has a joint control with another entity. Holdings in associated companies and joint ventures over which the Group does not have over 50 per cent ownership of the voting rights or over which the Group does not exercise a major influence are included in

the consolidated financial statements using the equity method. Accordingly, the share of post-acquisition profits and losses are recognised in the income statement to the extent of the Group's holding in the associated companies and joint ventures. When the Group's share of losses exceeds the carrying amount it is reduced to nil and any recognition of further losses ceases unless the Group has an obligation to fulfil the associated company's or joint ventures' obligations. Joint ventures over which the Group has over 50 per cent ownership of the voting rights or over which the Group otherwise exercises a major influence are included in the consolidated financial statements using the acquisition cost method.

**Foreign currency translations and exchange rate differences**

Each company translates its foreign currency transactions into its own functional currency, using the rate of exchange prevailing on the transaction date. Outstanding monetary receivables and payables in foreign currencies are stated using the exchange rates on the balance sheet date. Exchange rate gains and losses on actual business operations are treated as sales adjustment items or adjustment items to materials and services. Exchange rate gains and losses on financial transactions are entered as exchange rate differences in financial income and expenses.

In the consolidated financial statements, the income statements of the Group's foreign subsidiaries are converted into euros using the average exchange rates quoted for the reporting period. All balance sheet items are converted into euros using the exchange rates quoted on the reporting date. The resulting conversion difference and other conversion differences resulting from the conversion of subsidiaries' equity are shown as a separate item under equity. In addition, in the consolidated financial statements, exchange rate differences in the loans granted by the parent company to foreign subsidiaries in replacement of their equity are treated as translation differences. Realised translation differences in relation to the divestment of subsidiaries and the redemption of material shares in subsidiaries are recognised as income or expenses in the consolidated statement of comprehensive income.

**Key exchange rates for the euro**

	At end of period		Average	
	2021	2020	2021	2020
USD	1.1326	1.2271	1.1816	1.1470
SEK	10.2503	10.0343	10.1562	10.4815
CAD	1.4393	1.5633	1.4804	1.5380
DKK	7.4364	7.4409	7.4368	7.4534
PLN	4.5969	4.5597	4.5720	4.4680
NOK	9.9888	10.4703	10.1639	10.7821

**Non-current assets held for sale and discontinued operations**

Non-current assets held for sale and assets related to discontinued operations are formed once the company, according to a single co-ordinated plan, decides to dispose of a separate significant business unit, whose net assets, liabilities and financial results can be separated operationally and for financial reporting purposes (cash generating unit). Non-current

assets held for sale are shown separately in the consolidated balance sheet. Profit or loss from a discontinued operation and gains or losses on its disposal are shown separately in the consolidated statement of comprehensive income. Assets related to non-current assets held for sale and discontinued operations are assessed at book value or, if it is the lower of the two, at fair value. Depreciation from these assets has been discontinued upon the date of classifying assets as non-current assets held for sale and discontinued operations. The Group has no assets classified as non-current assets held for sale or discontinued operations at the end of the financial or a comparable period.

**Revenue from contracts with customers**

Uponor Group is in the business of providing systems and solutions for safe drinking water delivery, energy-efficient radiant heating and cooling, and reliable infrastructure. The revenue streams can be divided into two groups:

- Sale of goods
- Rendering of services including project business and water monitoring services.

**Sale of goods**

The sale of goods includes products such as pipes, chambers and water tanks. Each good provided to the customer is distinct from the other products provided to the customer and therefore, each good is considered as a separate performance obligation.

The Group recognises the revenue for the goods at a point in time. When determining the timing of revenue recognition, the Group analyses the delivery terms and customer acceptance clauses in order to define the exact timing of the control being transferred. Certain products have a right of return, but the Group has assessed that the returns are unlikely and therefore, they are considered immaterial. Regarding warranties provided, Uponor provides warranties for general repairs of defects that exist at the time of sale, as required by law. Therefore, Uponor provides assurance to the customer that the product is working in the manner intended. Uponor recognises these warranties in accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets.

**Rendering of services including project business and water monitoring services**

The Group has project deliveries in which Uponor is committed to deliver a complete set of goods and services to the customer, which include e.g. planning and design, overall project management and integration services. When the product provided by Uponor includes both goods and services, the Group accounts for the goods and services in the contract as a single performance obligation. In case a licensing agreement is needed for the good to be fully operating, the good and the license are accounted for as separate performance obligations, as the customer can benefit from the goods without a license.

The Group recognises revenue for rendering of services over time as the Group has concluded to have an enforceable right to payment for performance completed to date.

The Group applies the input method to recognise revenue for contracts in the project business, which is used when the outcome of the project can be estimated reliably. The input method is defined as the proportion of the individual project cost incurred to date from the total estimated project costs. The payment frequency is linked with the milestones of the project.

Additionally, Uponor has provided cloud-based water monitoring services relating to monitoring of water consumption, quality and leakages for both private consumers and municipal networks. The services include a device, an application for

use of the device and accompanied services. These services are considered to be highly interdependent and are therefore treated as one performance obligation.

The water monitoring services are invoiced based on a fixed monthly fee, including all components relating to the services. The contract term is fixed for 30–36 months and continues thereafter as ongoing until further notice. The Group recognises revenue for the water monitoring services over time. Equipment and installation costs relating to the contracts are accounted for as contract costs and thus periodised on a straight-line basis over the contract period.

In both revenue streams, Uponor is acting as principal in all the customer contracts as the Group provides the goods and services itself to a customer and controls the specified goods and services before they are transferred to a customer.

### Contract balances

**Contract assets and trade receivables.** Uponor records a trade receivable when Uponor's right to payment is unconditional (i.e. only the passage of time is required before payment of the consideration is due). For trade receivables, please refer to Note 26.

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. Uponor recognises a contract asset for the earned consideration that is conditional in case services are rendered or goods are provided before receiving the payment from the customer e.g. in project business or before delivery of goods has been invoiced. Contract assets are subject to impairment assessment. Refer to accounting policies of financial assets.

**Contract liabilities.** A contract liability is the obligation to transfer goods or services to a customer for which Uponor has received consideration from the customer. The contract liability is recognised when the payment is received or when the payment is due (whichever is earlier). Contract liabilities are recorded as revenue when Uponor performs under the contract. Contract liabilities may arise within the project business and within the water monitoring services.

### Research and development

Research costs are expensed as incurred and are included in the consolidated statement of comprehensive income in other operating expenses. Development costs are expensed as incurred, unless the criteria for capitalising these costs as assets are met. Product development costs are capitalised as intangible assets and are depreciated during the useful life of the asset, if future economic benefits are expected to flow to the entity and certain other criteria, such as the product's technical feasibility and commercial usability, are confirmed. The Group does not have any capitalised development costs.

### Pension plans

The Group's pension schemes comply with each country's local rules and regulations. Pensions are based on actuarial calculations or actual payments to insurance companies. The Group applies defined contribution and defined benefit pension plans.

Within the defined contribution plan, pension contributions are paid directly to insurance companies and, once the contributions have been paid, the Group has no further payment obligations. These contributions are recognised in the income statement for the accounting period during which such contributions are made.

For defined benefit pension plans, the liability is the present value of the defined benefit obligation on the balance sheet date less the fair value of plan assets. The pension obligation is defined using the projected unit credit method. The discount rate applied to calculating the present value of post-employment benefit obligations is determined by the market yields of

long-term corporate bonds or government bonds. Costs resulting from the defined benefit pension plans are recognised as expenses for the remaining average period of employment.

Current service cost (benefit expense) and net interest cost on defined benefit obligation (net liability) are recognised in the income statement and presented under employee benefit costs. Re-measurement items on defined benefit plan obligations and plan assets, including actuarial gains and losses and return on plan assets (excluding interest income), are immediately recognised through other comprehensive income and such balances are permanently excluded from the consolidated income statement.

### Operating profit

Operating profit is an income statement item, which is calculated by deducting expenses related to operating activities from net sales and other operating income.

### Borrowing costs

Borrowing costs are recognised in the income statement as they incur. Direct transaction expenses due to loans, clearly linked to a specific loan, are included in the loan's original cost on an accrual basis and recognised as other financial expenses using the effective interest method. Interest costs on borrowings to finance the construction of assets are capitalised as part of the cost during the period required to prepare and complete the property for its intended use.

### Income taxes

Income taxes in the consolidated statement of comprehensive income comprise taxes based on taxable income recognised for the period by each Group company on an accrual basis, according to local tax regulations, including tax adjustments from the previous periods and changes in deferred tax. Deferred tax assets or liabilities are calculated, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, using the tax rate approved on the balance sheet date. Deferred tax assets are recognised to the extent that it appears probable that future taxable profit will be available, against which temporary differences can be utilised.

### Intangible assets

#### Goodwill

Goodwill represents future economic benefits arising from assets that are not capable of being individually identified and separately recognised by the Group. Goodwill represents the excess of the cost of an acquisition over the fair value of the net assets of the acquired company on the date of acquisition. Goodwill is allocated to the business divisions. Goodwill is not amortised, but is tested for impairment annually. Gains and losses on the disposal of a Group entity include any goodwill relating to the entity sold.

#### Other intangible assets

Other intangible assets include trademarks, patents, copyrights, software licences, technology and customer relations. Intangible assets are recognised in the balance sheet at historical costs less accumulated depreciation, according to the expected useful life and any impairment losses.

### Property, plant and equipment

Group companies' property, plant and equipment are stated at historical cost less accumulated depreciation, according to the expected useful life and any impairment losses. Interest costs on borrowings to finance the construction of these assets are capitalised as part of the cost during the period required to prepare and complete the property for its intended use.

Ordinary repair and maintenance costs are charged to the income statement during the financial period in which they are incurred. The cost of major renovations is included in the asset's carrying amount when it is probable that the Group will incur future economic benefits in excess of the originally assessed standard of performance of the existing asset.

Gains or losses on the disposal, divestment or removal from use of property, plant and equipment are based on the difference between the net gains and the balance sheet value. Gains are shown within other operating income and losses under other operating expenses.

### Depreciations

Group companies' intangible assets and property, plant and equipment are stated at historical cost less accumulated straight-line depreciation, according to their expected useful life and any impairment losses. Land is not depreciated, as it is deemed to have an indefinite life, but depreciation is otherwise based on estimated useful lives as follows:

	<b>Years</b>
Buildings	20–40
Production machinery and equipment	8–12
Other machinery and equipment	3–15
Office and outlet furniture and fittings	5–10
Transport equipment	5–7
Intangible assets	3–10

The residual value and useful life of assets are reviewed on each balance sheet date and, if necessary, adjusted to reflect any changes in expectations of financial value.

### Government grants

Any grants received for the acquisition of intangible or tangible assets are deducted from the asset's acquisition cost and recorded on the income statement to reduce the asset's depreciation. Other grants are recognised as income for the periods during which the related expenses are incurred. Such grants are shown as deductions from expenses related to the target of the grant.

### Impairment

The balance sheet values of assets are assessed for impairment on a regular basis. Should any indication of an impaired asset exist, the asset's recoverable amount will be assessed. The asset's recoverable amount is its net selling price less any

selling expenses, or its value in use, whichever is higher. The value in use is determined by reference to the discounted future net cash flow expected from the asset. Discount rates correspond to the cash generating unit's average return on investment before taxes. Impairment is measured at the level of cash generating units, which is the lowest level that is primarily independent of other units and whose cash flows can be distinguished from other cash flows.

Whenever the asset's carrying amount exceeds its recoverable amount, it is impaired and the resulting impairment loss is recognised in the income statement. An impairment of property, plant and equipment and other intangible assets, excluding goodwill, will be reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. Impairment is not reversed over the balance sheet value that existed before the recognition of impairment losses in the previous financial periods. Any impairment loss on goodwill is not reversed.

Goodwill is assessed for impairment at least annually, or if any indication of impairment exists, more often.

### Leases

Uponor's leased assets comprise mainly of properties (offices and warehouses including land areas), cars and forklifts.

At contract inception, Uponor determines whether the contract is, or contains, a lease. A contract is determined as a lease contract if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Uponor recognises a right-of-use asset and a lease liability corresponding to the present value of the future lease payments in the consolidated statement of financial position at the commencement date of the lease.

#### Lease liabilities

At the commencement date of the lease, Uponor recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments, inclusive of in-substance fixed payments, less any lease incentives receivable and variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date. Uponor does not have significant contracts including variable lease payments. The lease contracts may also contain payments of penalties for terminating the leases. Uponor includes the termination penalty in the lease payments if it has determined that there is a reasonable certainty of terminating the lease. Neither VAT nor other indirect taxes are not included in the carrying amount of the leasing liability.

The lease term is defined as the period when the lease is non-cancellable. In assessing the lease term, Uponor has estimated the expected termination date. In estimating the termination date, Uponor considers e.g. the expenditure related to the termination of the lease and the importance of the underlying asset to its operations. Uponor has entered into lease agreements valid until further notice relating mainly to real estate leases. Regarding lease contracts that include extension and termination options, Uponor exercises significant judgement whether these extension and termination options are reasonably certain to be exercised.

Uponor calculates the present value of the lease payments using the interest rate implicit in the lease if this is readily available. For contracts where the interest rate implicit in the lease is not readily available, the incremental borrowing rate is used. The incremental borrowing rate reflects the rate at which Uponor could borrow an amount similar to the value of the right-of-use asset, in the same currency, over the same term, and with similar collateral. Uponor has determined the incremental borrowing rates taking into consideration the financial environment of the contract, the maturity of the lease agreements and the different economic environments. Based on these factors, Uponor uses an interest rate matrix to determine the appropriate discount rate for different lease contracts where the interest rate implicit in the lease is not readily available.

**Right-of-use assets**

Uponor recognises right-of-use assets at the commencement date of the lease, which is the date when the underlying asset is available for use. The right-of-use assets are measured at cost, which comprises the amount of lease liability and the lease payments made at or before the commencement of the lease including any direct costs incurred less any lease incentives received. The right-of-use assets are subsequently measured at cost less any accumulated depreciation and impairment losses and adjusted for any re-measurement of lease liabilities.

Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term as follows:

Buildings	3–10 years
Land and water	3–45 years
Machinery and equipment	3–15 years
Other tangible assets	3–10 years

Right-of-use assets are subject to impairment testing.

**Short-term leases and leases of low-value assets**

Uponor applies the short-term lease recognition exemption to its short-term leases and low value assets. In determining whether a contract is a short-term lease contract Uponor takes into account reasonable certainty of exercising extension and termination options similarly as for other leases. If a lease contains a purchase option, Uponor does not consider it to be a short-term lease. In determining whether a lease contains a low-value asset, Uponor considers the value of the underlying asset when new and not in its current age and condition. Lease payments relating to short-term leases and leases of low value are recognised as an expense on a straight-line basis over the lease term.

**Inventories**

Inventories are stated at the lower of cost or net realisable value, based on the FIFO principle. The net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and sale. In addition to the cost of materials and direct labour, an appropriate proportion of production overheads is included in the inventory value of finished products and work in progress.

**Provisions**

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, if it is probable that an outflow of resources will be required to settle the obligation or if the settlement of an obligation will cause a legal loss and a reliable estimate of the amount of obligation can be made. Provisions can include e.g. environmental provisions, warranty provisions, restructuring costs and onerous contracts. Changes in provisions are included in relevant expenses on the consolidated statement of comprehensive income. The amount of provisions is reviewed on every balance sheet date and the amounts are revised to correspond to the best estimate at that moment.

**Contingent assets and liabilities**

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence of uncertain future events not wholly within the control of the entity. Such present obligation that probably does

not require a settlement of a payment obligation or the amount of which cannot be reliably measured is also considered to be a contingent liability. Contingent liabilities are disclosed in the notes to the financial statements.

**Cash and cash equivalents**

Cash and cash equivalents include cash in hand, deposits held at bank and other short-term, highly liquid investments, whose maturity does not exceed three months. Cash and cash equivalents are carried in the balance sheet at cost. The bank account credit limit in use is recognised under current interest-bearing liabilities.

**Financial assets**

Financial assets are classified as follows: amortized cost, fair value through profit and loss and fair value through other comprehensive income. Sales and purchase of financial assets are recognised at their trading date.

*Amortized cost* assets consist of holdings in non-listed companies and investments, non-derivative assets with fixed or determinable payment dates that are not quoted in the active markets or held for trading purposes. Loan and other receivables are measured at amortised cost. Accounts receivable are carried at expected fair value, which is the original invoice amount less the provision made for impairment of these receivables. A provision for impairment of accounts receivable is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, the probable bankruptcy of the debtor or default in payments are considered as probable indicators of the impairment of accounts receivable. Impairment of a loan receivable is assessed with the same criteria as an impairment of accounts receivable.

*Fair value through profit and loss* include financial assets held for trading and measured at fair value. Derivative instruments, for which hedge accounting is not applied, are included in financial assets at fair value through profit and loss. Interest and currency derivatives, for which no hedge accounting is applied, are recognised in the balance sheet at historical cost and valued at fair value on each balance sheet date. Fair value is determined using market prices on the balance sheet date, or the present value of estimated future cash flows. Changes in the fair value of financial assets at fair value through profit and loss, and unrealised and realised gains and losses, are included in financial income and expenses in the period in which they occur. Fair value through profit and loss are presented under the other current assets in the balance sheet.

*Fair value through other comprehensive income* assets include derivative instruments, for which hedge accounting is applied. Fair value through other comprehensive assets are measured at fair value based on market prices on the balance sheet date, or using the net present value method of cash flows, or another revaluation model. Changes in the fair value of other comprehensive income assets are recognised in the hedge reserve under shareholders' equity, taking tax consequences into account. Changes in the fair value will be re-entered from shareholders' equity into the consolidated statement of comprehensive income when the asset is disposed of or has lost its value to the extent that an impairment loss must be recognised.

**Financial liabilities**

Financial liabilities are classified as follows: amortized cost, fair value through profit and loss and fair value through other comprehensive income.

*Amortised cost* financial liabilities include non-current and current interest-bearing liabilities, accounts payable and other liabilities. Interest-bearing liabilities are initially measured at fair value and subsequently measured at amortised cost using the effective interest rate method. Transaction costs are included in the original book value of financial liabilities

*Fair value through profit and loss* financial liabilities includes those derivatives for which hedge accounting is not applied and whose fair value is negative.

*Fair value through other comprehensive income* financial liabilities include derivative instruments, for which hedge accounting is applied and whose fair value is negative.

### Derivative contracts and hedge accounting

Financial derivatives are used for hedging purposes and are initially recognised in the balance sheet at fair value and are subsequently re-measured at fair value on each reporting period's balance sheet date. At the contract date derivatives are classified as either cash flow hedges or hedges that hedge accounting is not applied to. For derivatives that hedge accounting is not applied to the changes in fair value are recognised under financial items in the consolidated statement of comprehensive income. The fair values of derivatives are determined on the basis of publicly quoted market prices.

Cash flow hedging is applied to electricity derivatives and interest rate derivatives. Hedge programmes are documented according to the requirements of IFRS 9.

Fair value changes of derivatives, which are designated as cash flow hedges, are recognised in other comprehensive income in the hedge reserve to the extent that the hedge is effective. Accumulated fair value changes in other comprehensive income are released into the consolidated statement of comprehensive income in the period during which the hedged cash flow affects the result, while electricity derivatives are recognised under cost of goods sold and interest rate derivatives under financial items.

The ineffective portion of the fair value change of cash flow hedges is recognised under cost of goods sold for electricity derivatives and under financial items for interest rate derivatives.

### Share-based payments – management incentive scheme

The fair value of share-based incentives have been determined at grant date and is expensed until vesting. The entire share incentive, including the cash-for-taxes portion is recognised in equity. Also the value of the cash portion is based on the grant date value to the extent not granted and expensed.

### Treasury shares

Treasury shares are presented in the financial statements as a reduction in shareholders' equity. Treasury shares are taken into account in calculating key figures and ratios according to IAS 33.

### Dividends

Dividends proposed by the Board of Directors are not recognised in the financial statements until their proposal is approved by the shareholders in the Annual General Meeting.

### Accounting policies requiring consideration by management and essential uncertainty factors associated with estimates

Estimates and assumptions regarding the future must be made during the preparation of the financial statements, and the outcome may differ from the estimates and assumptions. Furthermore, the application of accounting principles requires consideration.

Group management needs to make decisions regarding the selection and application of accounting principles. These judgements are in particular required in those cases in which the IFRS in force provide the opportunity to choose between various accounting, valuation or presentation methods.

The estimates made in connection with preparing the financial statements reflect the management's best view at the time of the closing of the accounts. These estimates are affected by historical experience and assumptions regarding future developments, which are regarded as well-founded at the time of closing the accounts. On a regular basis, the Group monitors the realisation of these estimates and assumptions through internal and external information sources. Any changes in estimates and assumptions are recognised in the financial statements for the period during which such corrections are made, and all subsequent financial periods.

Estimates have been used in determining the size of items reported in the financial statements, including, among other things, possibility to realise certain asset items, such as deferred tax assets and other receivables, the economic useful life of property, plant and equipment, provisions, pension liabilities and impairment on goodwill.

From the Group's perspective, the most significant uncertainty factors are related to impairment testing on goodwill, provisions and the defined benefit-based pension obligations. The application of the related accounting policies requires the use of estimates and assumptions that also have a large impact. Uncertainty factors in connection with impairment testing on goodwill relate to the assumptions made on future cash flows and determining the discount rate. The Group's weighted average capital cost rate (WACC) determined by reporting division is used as the discount rate in impairment tests. The book value of the defined benefit-based pension obligation is based on actuarial calculations, which in turn are based on the assumptions and estimates of a discount rate used for assessing plan assets and obligations at their current value, the expected rate of return on plan assets and developments in inflation, salary and wage levels.

Significant management's judgement relating to IFRS 15 Revenue from Contracts with customers has been applied in the following areas:

- Timing of revenue recognition (sale of goods and rendering of services)
- Right of return (sale of goods)
- Identifying performance obligations in project business
- Assessing the right to payment for performance completed date in project business

Relating to the timing of revenue recognition, the exact timing of the control transfer is analysed contract by contract taking into account the delivery terms, customer acceptance clauses and customer's ability to benefit from the goods delivered.

Significant judgement relating to lease contracts relates to determining the lease term. IFRS 16 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. Uponor has analysed the expected lease term and thereby assessed whether it is reasonably certain that any options to extend or terminate the agreements will be exercised for the lease contracts. Uponor has lease agreements with either a fixed lease term or which are valid until further notice. Uponor evaluates the lease term on a case by case basis. For lease agreements valid until further notice, Uponor has determined the lease term using the expected termination date based on its best estimate.

Uponor considers any significant leasehold improvements undertaken over the term, costs relating to the termination of the lease, such as negotiation costs, relocation costs, costs of identifying another underlying asset suitable for the lessee's needs, costs of integrating a new asset into the lessee's operations, or termination penalties and similar costs, including costs associated with returning the underlying asset in a contractually specified condition or to a contractually specified

location. Additionally, the importance of the underlying asset to the lessee's operations is considered, for example, whether the underlying asset is a specialised asset, the location of the underlying asset and the availability of suitable alternatives. Uponor will revise the lease term if there is a change in the non-cancellable period of a lease.

### New and amended IFRS standards and interpretations that are effective for the year 2021

The following new or revised IFRS standards have been adopted from 1 January 2021 in these consolidated financial statements

**Covid-19-Related Rent Concessions beyond 30 June 2021 – Amendment to IFRS 16 Leases** (effective from 1 April 2021 for financial years starting, at the latest, on or after 1 January 2021). The amendments allow the lessees not to account for rent concessions as lease modifications if the concessions are a direct consequence of the Covid-19 pandemic and only if certain conditions are met.

**Interest Rate Benchmark Reform – Phase 2 – Amendments to IFRS 9 Financial Instruments, IAS 39 Financial Instruments: Recognition and Measurement, IFRS 7 Financial Instruments: Disclosures, IFRS 4 Insurance Contracts and IFRS 16 Leases** (effective for financial years beginning on or after 1 January 2021). Amendments address issues affecting financial statements when changes are made to contractual cash flows and hedging relationships as a result of interest rate benchmark reform. Amendments assist companies in providing useful information about the effects of interest rate benchmark reform on financial statements.

**Configuration or Customisation Costs in a Cloud Computing Arrangement – IAS 38 Intangible Assets** (effective immediately). The agenda decision published by IFRS Interpretation Committee in April 2021 clarifies how to recognise costs of configuring or customising a supplier's application software in a Software as a Service (SaaS) arrangement. The agenda decision address whether an intangible asset may be recognized by the entity purchasing the service and if not how the configuration or customisation costs are accounted for. The agenda decisions have no effective date, so they are expected to be applied as soon as possible since published. The agenda decision does not have a material impact on the accounting policies applied to implementation costs in a cloud computing arrangement.

Adoption of the changes listed above did not have a material impact on the financial statements of the Group

### New and revised IFRS standards in issue but not yet effective

At the date of authorisation of these financial statements, the Group has not applied the following new and revised IFRS standards that have been issued but are not yet effective. The Group does not expect that the adoption of the Standards listed below will have a material impact on the financial statements of the Group in future periods, except as noted below:

**Onerous Contracts – Costs of Fulfilling a Contract – Amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets** (effective for financial years beginning on or after 1 January 2022). When an onerous contract is accounted for based on the costs of fulfilling the contract, the amendments clarify that these costs comprise both the incremental costs and an allocation of other direct costs.

**Annual Improvements to IFRS Standards 2018–2020** (effective for financial years beginning on or after 1 January 2022). The annual improvements process provides a mechanism for minor and non-urgent amendments to IFRSs to be grouped together and issued in one package annually. The amendments clarify the following standards:

- **IFRS 1 First-time Adoption of International Financial Reporting Standards – Subsidiary as a first-time adopter:** This amendment simplifies the application of IFRS 1 for a subsidiary that becomes a first-time adopter later than its parent. A subsidiary may elect to measure cumulative translation differences at amounts included in the consolidated financial statements of the parent.

- **IFRS 9 Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities:** This amendment clarifies that – for the purpose of performing the "10 per cent test" for derecognition of financial liabilities – in determining those fees paid net of fees received, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

- **IFRS 16 Leases – Lease incentives – Example 13.** The amendment removes the illustration of payments from the lessor relating to leasehold improvements. The example was not clear as to why such payments are not a lease incentive.

**Property, Plant and Equipment – Proceeds before Intended Use – Amendments to IAS 16 Property, Plant and Equipment** (effective for financial years beginning on or after 1 January 2022). Under the amendments, proceeds from selling items before the related item of PPE is available for use should be recognized in profit or loss, together with the costs of producing those items.

**Reference to the Conceptual Framework – Amendments to IFRS 3 Business Combinations** (effective for financial years beginning on or after 1 January 2022). The amendments update a reference in IFRS 3 and made further reference related amendments.

**IFRS 17 Insurance Contracts** (effective for financial years beginning on or after 1 January 2023, early application permitted for companies that also apply IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers). The new standard for insurance contracts will help investors and others better understand insurers' risk exposure, profitability and financial position. This standard replaces IFRS 4 standard.

**Classification of Liabilities as Current or Non-current – Amendments to IAS 1 Presentation of Financial Statements \*** (effective for financial years beginning on or after 1 January 2023, early application is permitted). The amendments are to promote consistency in application and clarify the requirements on determining if a liability is current or non-current.

**Disclosure of Accounting Policies – Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements \*** (effective for financial years beginning on or after 1 January 2023, early application is permitted). The amendments clarify the application of materiality to disclosure of accounting policies.

**Definition of Accounting Estimates – Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors \*** (effective for financial years beginning on or after 1 January 2023, early application is permitted). The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates.

**Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12 Income Taxes \*** (effective for financial years beginning on or after 1 January 2023, early application is permitted). The amendments narrow the initial recognition exemption (IRE) and clarify that the exemption does not apply to transactions such as leases and decommissioning obligations which give rise to equal and offsetting temporary differences.

**Comparative Information – Amendments to IFRS 17 Insurance contracts: Initial Application of IFRS 17 and IFRS 9 \*** (effective for financial years beginning on or after 1 January 2023). Amendment to IFRS 17 to alleviate mismatches in comparative information arising from the different transition requirements of IFRS 9 and IFRS 17.

**Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures \*** (available for optional adoption, effective date deferred indefinitely). The amendments address the conflict between the existing guidance on consolidation and equity accounting and require the full gain to be recognised when the assets transferred meet the definition of a 'business' under IFRS 3 Business Combinations

\* = not yet endorsed for use by the European Union as of 31 December 2021

## 2. Segment information

Uponor's segment structure is based on business and geographical divisions in accordance with the organisational structure. The reporting divisions are Building Solutions – Europe, Building Solutions – North America and Uponor Infra. The business risks and profitability factors differ from each other with respect to the market and business environments, product offering, services and customers. The Group's management, control and reporting structures are organised by business division. The reported divisions are specified as operating divisions, which have not been combined.

Building Solutions – Europe is in charge of the European markets and sales to such non-European countries in which Uponor does not have its own operations.

Building Solutions – North America is responsible for business operations in the U.S and Canada. Building solutions in Uponor mainly refers to indoor climate and plumbing solutions for residential and non-residential buildings. A major part of the building solutions customers are heating, ventilation and air conditioning (HVAC) professionals, such as installers and building companies.

Uponor Infra specialises in municipal infrastructure pipe systems business in Northern Europe and it has also business in Central Europe. Its products and services, such as sewer and storm water systems and wastewater treatment systems and project services are sold to municipalities, utilities and pipeline construction and renovation customers.

The 'Others' division includes Group functions.

Financial target setting and monitoring mainly focus on figures for division sales, operating profit, operative costs and net working capital. Group resources are managed, for instance, by allocating investments to attractive businesses and balancing human resources and competencies to match the requirements of business processes.

Division reporting is based on the Group accounting principles. All transactions between divisions are market-based and internal sales and margins are eliminated from consolidated figures.

The division revenue equals to the net sales and the division result equals to the operating profit presented in the condensed consolidated income statement. The income statement consists of continuing operations by division, while balance sheet items match the Group structure on the closing dates.

Division assets include items directly attributable to a division and items, which can be allocated on a reasonable basis. These are mainly non-interest-bearing items such as intangible assets, property, plant and equipment, inventories, accruals, accounts receivables and other receivables.

### Disaggregated revenue information

The Group disaggregates revenue recognised from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. Set out below is the disaggregation of the Group's revenue from contract with customers, including reconciliation of the revenue:

M€	2021			2020		
	Sale of goods	Rendering of services	Total	Sale of goods	Rendering of services	Total
<b>Revenue from contract with customers</b>						
Building Solutions - Europe	556.8	5.9	562.7	491.2	6.7	497.9
Building Solutions - North America	467.5	0.0	467.5	389.1	0.0	389.1
Uponor Infra	265.5	17.5	283.0	233.1	15.9	249.0
<b>External customer, total</b>	<b>1,289.8</b>	<b>23.4</b>	<b>1,313.2</b>	<b>1,113.4</b>	<b>22.6</b>	<b>1,136.0</b>
Internal revenue	5.3		5.3	4.5		4.5
<b>Total</b>	<b>1,295.1</b>	<b>23.4</b>	<b>1,318.5</b>	<b>1,117.9</b>	<b>22.6</b>	<b>1,140.5</b>
Eliminations	-5.3		-5.3	-4.5		-4.5
<b>Total revenue</b>	<b>1,289.8</b>	<b>23.4</b>	<b>1,313.2</b>	<b>1,113.4</b>	<b>22.6</b>	<b>1,136.0</b>

#### Sale of goods

The sale of goods include products such as pipes, chambers and water tanks. Each good provided to the customer is distinct from the other products provided to the customer and therefore, each good is considered as a separate performance obligation. The Group has concluded that revenue from sale of goods should be recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods.

#### Rendering of services including project business

Typically, the promised goods and services in the contract are not distinct from each other and therefore, in most of the cases the Group accounts for the goods and services as a single performance obligation. The Group has concluded that the rendered services including project business are satisfied over time given that the Group's performance does not create an asset with an alternative use to the Group. The Group has an enforceable right to payment for performance completed to date or the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.

### 3. Business acquisitions and disposals

#### Acquisitions 2021

On 29 October 2021, Uponor announced that the company had completed the acquisition of all outstanding shares in Capricorn S.A. from its owners. Capricorn is a Polish manufacturer of components for heating and sanitary installations. In 2020, its net sales were close to EUR 25 million and it employs approximately 400 people in Świebodzice, in the South West Poland. This acquisition aims at broadening Uponor's portfolio as Capricorn's portfolio complements well existing radiant heating and cooling product range, and their location offers a strategic extension to manufacturing footprint in Eastern Europe. The new company is included in the division Building Solutions - Europe.

The consideration paid of €21.2 million represents the entire determined fair value of the company. The estimate was done by applying an income approach and a market approach. The goodwill of €10.0 million arising from the acquisition consists largely of attainable synergies, such as those involving international growth, product portfolio, and cross selling. The acquisition calculation is preliminary; the fair value of acquired net assets is provisional pending on the receipt of final valuations for identifiable intangible assets and property, plant and equipment.

Acquisition related costs amounted to €1.0 million, of which €0.8 were included in administration expenses and €0.2 in other operative expenses in the consolidated statement of comprehensive income for the reporting period ended 31 December 2021.

Capricorn S.A. was included in the consolidated statement of comprehensive income as of 1 November 2021, contributed a total of €3.7 million in net sales and -€0.4 million in profit for the period.

#### Acquisitions 2020

On 1 October 2020, Uponor Infra Oy acquired a Finnish engineering company Insinööritoimisto Sukellus-Kotka Oy (Uponor Infra Marine Services Oy since 26 November 2020).

Uponor Infra Marine Services Oy is specialised in inspection, repair, design and installation services for under water constructions. Its projects vary from short inspections of underwater constructions to broad project implementations such as pier reparations and spillway gate renewals. Underwater blasting is one of company's expertise areas. The acquisition supports Uponor Infra division's strategy to grow Uponor Infra 360° project services.

The consideration of €5.3 million paid represents the entire determined fair value of Uponor Infra Marine Services Oy. The goodwill of €2.3 million arising from the acquisition consists largely of attainable synergies, such as those involving international growth, project business and cross selling. The acquisition calculation is preliminary; the fair value of acquired net assets is provisional pending on the receipt of final valuations for identifiable intangible assets and property, plant and equipment.

Acquisition related costs amounted to €0.1 million. They were included in other operating expenses in the consolidated statement of comprehensive income in 2020.

Uponor Infra Marine Services Oy included in the consolidated statement of comprehensive income as of 1 October 2020, contributed a total of €0.8 million in net sales and €-0.1 million in profit for the period.

- Equity settled share-based payment expenses	4.2	2.5
<b>Total</b>	<b>278.8</b>	<b>257.8</b>
Personnel at 31 December	4,234	3,658
Personnel, average	3,871	3,708

In 2021 and 2020, termination benefit expenses mainly consisted of expenses related to operational excellence programme. Information on the management's employee benefits is presented in note 31 Related party transactions.

## 6. Depreciation and impairment

M€	2021	2020
<b>Depreciation and impairment by asset category</b>		
Intangible rights	2.0	2.4
Other intangible assets	0.9	2.6
Land and water areas	0.2	0.2
Buildings and structures	11.5	11.4
Machinery and equipment	25.8	26.4
Other tangible assets	8.9	9.6
<b>Total</b>	<b>49.1</b>	<b>52.7</b>
<b>Depreciation and impairment by function</b>		
Cost of goods sold	32.9	33.7
Dispatching and warehousing	5.0	5.1
Sales and marketing	6.2	8.2
Administration	3.9	4.7
Other	1.0	1.0
<b>Total</b>	<b>49.1</b>	<b>52.7</b>

Depreciation includes also depreciation of right-of-use assets in the amount of €12.8 (12.6) million.

In 2020, an impairment of €0.6 million was made related to tangible assets. By function, this is included in cost of goods sold.

## 7. Financial income and expenses and currency exchange differences

M€	2021	2020
<b>Financial income</b>		
Dividend income from other shares and holdings	0.1	0.1
Interest income from loans and other receivables	0.1	0.8
Profit from financial assets and liabilities designated at fair value through profit and loss		
- net foreign currency derivatives, not under hedge accounting	-	10.8
Exchange differences	16.7	4.4
Other financial income	0.2	0.1
<b>Total</b>	<b>17.2</b>	<b>16.2</b>
<b>Financial expenses</b>		
Interest expense for financial liabilities measured at amortised cost	2.7	3.2
Interest expense from interest rate swaps	0.5	0.3
Loss from financial assets and liabilities designated at fair value through profit and loss		
- net foreign currency derivatives, not under hedge accounting	10.0	-
Exchange differences	9.9	17.9
Other financial costs	2.1	1.1
<b>Total</b>	<b>25.1</b>	<b>22.5</b>

In 2021, exchange rate gains and losses included in operating income and expenses totaled a €0.6 million loss (€0.6 million gain). Interest expenses included the interest part of lease payments of €1.1 (1.3) million.

## 8. Income taxes

M€	2021	2020
<b>Current year and previous years taxes</b>		
For the financial period	40.1	34.0
For previous financial periods	-0.8	-0.2
Change in deferred taxes	-3.0	-8.2
<b>Total</b>	<b>36.4</b>	<b>25.7</b>
<b>Tax reconciliation</b>		
Profit before taxes	139.8	121.8
Computed tax at Finnish statutory rate (20%)	28.0	24.4
Difference between Finnish and foreign rates	6.0	4.9
Non-deductible expenses	1.5	1.3
Tax exempt income	-0.2	-0.4
Utilisation of previously unrecognised tax losses	-0.6	-1.9
Unrecognised deferred tax assets on losses	2.1	0.1
Change in tax legislation	-0.1	0.1
Taxes from previous years	-0.8	-0.2
Other items	0.5	-2.6
<b>Total</b>	<b>36.4</b>	<b>25.7</b>
Effective tax rate, %	26.0	21.1

Effective tax rate in 2021 was 26.0% (21.1). The increase in effective tax rate was due to one-time impacts in 2020 related to utilisation of old tax losses and transfer pricing agreement between tax authorities.

During 2021 and 2020 there were no significant changes in national tax legislation having impact on Group's deferred taxes.

## Taxes relating to other comprehensive income

The 2021 and 2020 increases in intangible assets were mainly included investments to IT software development.

In 2021, business combinations include acquisition of Capricorn S.A.. In 2020, business combinations include acquisition of Uponor Infra Marine Services Oy.

According to the IFRS 3 standard, goodwill is not depreciated but is tested at least annually for any impairment. The recoverable amount of cash generating units are determined based on value in use calculation, which uses cash flow projections. If a unit's recoverable amount does not exceed the carrying amount, impairment is booked. Goodwill has been allocated between the divisions as follows: Building Solutions – Europe €84.3 (74.1) million and Uponor Infra €11.8 (11.8) million. In 2021, the changes relate mainly to the acquisition of Capricorn S.A..

Impairment tests are carried out for each separate cash-generating unit. Cash flow forecasts related to goodwill cover a period of 5 years. Terminal value is calculated from the fifth year's cash flow. Cash flow forecasts are based on the strategic plans approved by the management. Key assumptions of the plans relate to growth and profitability development of the markets and the product and service offerings. A cash-generating unit's useful life has been assumed to be indefinite, since these units have been estimated to impact on the accrual of cash flows for an undetermined period. The discount rate used is based on the interest rate level reflecting the average yield requirement for the cash generating unit in question. The discount rate used was 7.2 (8.2) per cent for Building Solutions – Europe and 6.2 (7.2) per cent for Uponor Infra. The 2021 goodwill impairment tests indicated that there was no need to make impairments.

A sensitivity analysis is performed for the following variables: sales, gross profit margin and discount rate. A 11.1 per cent sales reduction compared to the forecasted long-term levels would not expose the Group to any material impairment risk. A decrease of 4.9 percentage points in gross profit margin would not cause any impairment, provided that other business factors remained unchanged. A discount rate increase of 9.2 percentage points would not lead to any impairment, either. Presented sensitivities relate to the division Uponor Infra, as its goodwill is more sensitive to the risk of impairment. It is the opinion of management that the changes in the basic assumptions in the theoretical scenarios mentioned above should not be interpreted as evidence that they are likely to occur.

Goodwill sensitivity analysis	Building Solutions – Europe		Uponor Infra	
	2021	2020	2021	2020
Book value of goodwill 31.12, M€	84.3	74.1	11.8	11.8

Interest-bearing liabilities	22, 23		12.3	29.0
Accounts payable and other liabilities	24		177.6	134.5
<b>Financial liabilities total</b>			<b>298.6</b>	<b>289.7</b>

The carrying value of financial assets and liabilities is considered to correspond to their fair value. Group's financial instruments are classified according to IFRS 7 fair value hierarchies.

Uponor applies hierarchy as follows:

The fair value of electricity derivatives are measured based on stock exchange prices. (Hierarchy 1)

The fair value of foreign exchange derivatives and interest rate derivatives are measured based on price information from common markets and commonly used valuation methods. (Hierarchy 2)

### 13. Investment in joint ventures and associated companies

M€	2021	2020
Acquisition costs 1 Jan	9.4	10.9
Share of result in associated companies	-6.4	-4.2
Increases	-	4.0
Decreases	-2.5	-
Dividends received	-0.4	-0.3
Translation difference	0.3	-0.8
<b>Book value 31 Dec</b>	<b>0.4</b>	<b>9.4</b>

On 13 August, Uponor announced that the company and Belkin International, Inc. have signed a share purchase agreement for the sale of Uponor's shares in Phyn, a water sensing and conservation technology company, to Belkin. Phyn was founded in 2016 as a joint venture between Uponor and Belkin, with both owning 50% of the company. As a joint-venture company, Phyn was consolidated into Uponor's financial accounts using the equity method until the sale.

### Summarised financial information in respect of the joint ventures

M€	2021	2020
Phyn		
Net sales	1.0	3.1
Profit for the period	-5.4	-9.3
Total comprehensive income for the period	-5.4	-9.3
Non-current assets	-	18.2
Current assets	-	2.4
Equity	-	17.9
Current liabilities	-	2.7
The above amounts of assets and liabilities include		
Cash and cash equivalents	-	1.5
<b>Carrying amount of interest in joint venture</b>		
Net assets in joint ventures	-	17.9
Group's ownership	-	50.0%
Group's share of interest in Phyn	-	8.9

The Group has two German associated companies: Punitec GmbH and Punitec Verwaltungs GmbH, whose book value is €0.4 (0.4) million. From its 2021 result, Punitec GmbH paid a dividend of €0.4 (0.3) million to Uponor.

## 14. Other securities and non-current receivables

M€	2021	2020
Other shares and holdings	1.5	0.6
Loan receivables	0.4	0.4
Derivative contracts	0.6	0.1
Other non-current receivables	3.9	3.7
<b>Total</b>	<b>6.5</b>	<b>4.8</b>

Other non-current receivables include €3.5 (3.3) million in funds recorded as receivables related to the court approved class action settlements in the USA in 2015. In 2020, €3.4 million of the funds were returned.

## 15. Inventories

M€	2021	2020
Raw materials and consumables	37.1	24.9
Semifinished products	27.2	20.8
Finished products / goods	110.2	83.0
<b>Total</b>	<b>174.4</b>	<b>128.7</b>

Based on the FIFO principle, inventories are valued at the lower of cost or net realisable value. During the year, inventories were scrapped or written down by €4.8 (5.3) million.

## 16. Current receivables

M€	2021	2020
Accounts receivable	206.8	163.6
Contract assets	2.2	1.2
Current income tax receivables	5.7	8.6
Prepayments and accrued income	1.5	1.6
Derivative contracts	3.5	4.1
Other receivable	43.6	31.5
<b>Total</b>	<b>263.3</b>	<b>210.7</b>

According to the Group's assessment, the carrying value of non-interest-bearing current receivables, except for commodity contracts receivable, is considered to correspond with their fair value.

Accounts receivable are non-interest-bearing and the payment terms vary based on market areas and conditions. Contract assets are recognised for revenue earned from rendering of services including project business.

Aging of accounts receivable is presented in note 26 Financial risk management.

## 17. Cash and cash equivalents

M€	2021	2020
Cash and bank deposits	89.1	138.0
Other short-term investments (1-3 months)	9.0	0.0
<b>Total</b>	<b>98.1</b>	<b>138.0</b>

## 18. Shareholders' equity

During 2021, Uponor Corporation's share capital remained unchanged at 146,446,888 euros and the number of shares totalled 73,206,944. Each share entitles its holder to one vote at the shareholders' meeting. The share does not have any nominal value. Additionally, it does not have any minimum or maximum share capital other than stipulated by Finnish Limited Liability Companies Act. All shares issued have been paid in full.

(1,000)	2021	2020
Number of shares outstanding, 1 Jan	73,022	72,987
Share based incentive plan	46	35
Board remuneration	5	-
Acquisition of own shares	-500	-
Number of shares outstanding, 31 Dec	72,573	73,022

At the beginning of 2021 the company held 184,966 treasury shares with a value of €1.7 million. During the period, 45,659 of the company's own shares were transferred to the management as part of the long-term incentive scheme for the years 2018-2020 and 5,101 treasury shares were used for board remuneration. The company also bought back 500,000 shares from the market. At the end of 2021, company held a total of 634,206 treasury shares with a value of €12.0 million. The treasury shares have been reacquired during the periods 26 Oct-2 Nov 2018 and 1-24 Nov 2021. The justification for the buy-back was the use of shares as consideration in connection with the share-based incentive schemes. Treasury shares are presented as a reduction in retained earnings and do not have any asset value in the financial statements.

Reserve for invested unrestricted equity includes investments complying with the Limited Liability Companies Act. Hedge reserve is used for recording the changes in fair value of derivative contracts under hedge accounting.

At present, other reserves include statutory legal reserves.

## 19. Deferred taxes

Translation difference	0.2	-0.3
Bought / sold business operations	2.2	0.2
<b>31 Dec</b>	<b>8.5</b>	<b>9.7</b>

The Group has recognised a deferred tax asset for its net operating loss carry-forwards, which can probably be utilised against future profits in the relevant tax jurisdictions. On 31 December 2021, the Group carried forward losses of €2.5 (2.8) million, for which the Group has a recognised deferred tax asset. In 2021, there is a €17.3 (12.0) million of loss carry-forwards for which no deferred tax asset has been recognised due to the uncertainty of the utilisation of these loss carry-forwards. No significant losses expire in 2022, but over the upcoming five years 2.0 M€ of unused tax losses in total will expire.

The Group recognises deferred taxes on the undistributed earnings of non-Finnish subsidiaries, in case repatriation would cause tax expenses. The Group recognises the deferred tax only to the extent that such earnings are not intended to be permanently reinvested in those operations.

## 20. Employee benefit obligations

The Group has a number of pension plans covering its operations, complying with each country's local rules and regulations. Moreover, the Group applies defined contribution and defined benefit pension plans. Pensions are based on actuarial calculations or actual payments to insurance companies. Independent authorised actuaries have prepared the actuarial calculations. The discount rate for actuarial calculations is determined by the reference to market yields of high-quality corporate bonds or government bonds. Used discount rates are country specific. Pension benefits are normally based on the number of working years and salary. Most defined benefit plans are located in Germany and Sweden, constituting around 98% of the defined benefit pension liability in the Group's balance sheet. Defined benefit plans in Germany and Sweden are unfunded and relate to pensions. These plans are closed for new entrants. Currently pensions are accrued according to defined contribution plans.

M€	2021	2020
Post-employment benefit obligations:		
- Defined benefit plans	18.1	19.5

Sensitivity analysis of discount rate	Effect on amount of liability
Increase of 0.5%	Decrease of 6% on average
Decrease of 0.5%	Increase of 7% on average

The Group expects to contribute €1.0 million to its defined benefit pension plans in 2022.

## 21. Provisions

M€	Guarantee and warranty obligations	Environmental obligations	Restructuring	Other provisions	Total
Provisions at 1 Jan	19.8	2.1	5.0	10.2	37.1
Translation difference	1.3	-	-	0.0	1.3
Additional provisions	15.9	-	1.7	3.6	21.2
Utilised provisions	-7.7	-0.1	-4.8	-2.5	-15.0
Unused amounts reversed	0.0	-	-0.1	-1.2	-1.3
<b>Provisions at 31 Dec</b>	<b>29.3</b>	<b>2.0</b>	<b>1.8</b>	<b>10.1</b>	<b>43.2</b>
Current provisions	6.2	0.2	1.8	9.5	17.7
Non-current provisions	23.1	1.8	0.0	0.6	25.5
<b>Total</b>	<b>29.3</b>	<b>2.0</b>	<b>1.8</b>	<b>10.1</b>	<b>43.2</b>

Warranty provisions amounted to €29.3 (19.8) million at the end of the period. Warranty provisions are based on the previous years' experience of defective goods. The aim is to be prepared for future warranty expenses. Warranty periods vary from country to country, depending on local legislation and commercial practices.

In autumn 2021, certain product-related lawsuits with class allegations were filed against Uponor in two states in North America. The cases are still in their early stages and it is uncertain if the classes will be certified and what impact, if any, the lawsuits will have on Uponor. Uponor mitigates its product liability-related risks through local and centralised insurance programmes at Group level.

Restructuring provisions relate mainly to the operational excellence programme that was announced in 2019 to secure competitiveness and further accelerate growth. The main initiatives are related to Building Solutions – Europe and Group functions and progressing as planned. The programme is expected to reduce approximately 200 FTEs. The updated annual savings target of the programme is €25 million by the end of the first half of 2022. The estimated one-time costs of the whole programme are around €22 million.

At period end, the environmental provision relating to the divested Finnish real estate business in 2004 was €2.0 (2.1) million.

## 22. Interest-bearing liabilities

M€	2021	2020
<b>Non-current interest-bearing liabilities</b>

Interest-bearing liabilities at 31 Dec	119.0	153.0

### Maturity of non-current interest-bearing liabilities

M€	2023	2024	2025	2026	2027–
Loans from financial institutions	2.4	0.7	0.4	70.4	0.9
Lease agreements	7.9	6.4	4.2	3.5	10.0
<b>Total</b>	<b>10.3</b>	<b>7.1</b>	<b>4.6</b>	<b>73.8</b>	<b>10.9</b>

### The weighted average interest rates of interest-bearing liabilities, % p.a.

M€	2021	2020
Commercial papers	-	0.37
Loans from financial institutions	0.98	0.77

In 2021 Uponor paid off its 5-year bilateral loan agreement of €100.0 million, which was to mature in July 2022, and raised two bilateral long-term loans of €40.0 million and €30.0 million, both of which will mature in January 2026.

At the end of the year, the Group had no (€15.0 million) issued outstanding commercial papers.

### 23. Lease liabilities

The carrying amounts of lease liabilities, movements during the period, as well as maturity analysis of lease liabilities are presented in note 22 Interest-bearing liabilities. The contractual maturity is presented in note 26 Financial risk management. The right-of-use assets are included in the balance sheet under property, plant and equipment. The carrying amounts of right-of-use assets recognised and the movements during the period are presented in note 11 Property, plant and equipment.

Relating to the lease contracts, the following are the amounts recognised in profit or loss:

M€	2021	2020
Depreciation expenses	12.8	12.6
Interest expenses	1.1	1.3
Expenses relating to short-term leases	0.2	0.1
Expenses relating to low-value assets	0.5	0.6
Expenses relating to other components of lease expenses not included in the measurement of the lease liability	1.9	1.9

The majority of the expenditure related to lease payments is presented in the cash flow from financing activities. In 2021, Uponor had total cash outflows for leases of €14.4 (€14.0) million, which included €1.1 (1.3) million in interest expenses. The future cash flows relating to lease contracts signed but that have the starting date on 1 January 2022 or later, and are thus not included in the lease liabilities and the right-of-use assets as of 31 December 2021, amount to €5.9 million.

### 24. Current liabilities

M€	2021	2020
Accounts payable	117.7	83.9
Current income tax liability	15.1	11.6
Accrued liabilities	94.6	76.1
Advances received	0.3	0.3
Contract liabilities	3.8	1.1
Derivative contracts	2.0	2.1
Other current liabilities	60.0	50.5
<b>Total</b>	<b>293.5</b>	<b>225.6</b>

Contract liabilities are recognised for revenue earned from rendering of services including project business, all projects are realised within one year.

M€	2021	2020
<b>Accrued liabilities</b>		
Personnel expenses	38.1	28.1
Bonuses	37.8	31.1
Taxes	0.0	0.7
Interest	0.3	0.4
Others	18.4	15.8
<b>Total</b>	<b>94.6</b>	<b>76.1</b>

## 25. Commitments, contingent assets and liabilities

M€	2021	2020
Commitments of purchase PPE (Property, plant, equipment)	13.1	2.6
- on own behalf		
Mortgages issued	4.4	1.1
Guarantees issued	0.3	0.4
- on behalf of a subsidiary		
Guarantees issued	16.7	12.9
Letter of Comfort commitments undertaken on behalf of subsidiaries are not included in the above figures.		
Mortgages issued	4.4	1.1
Guarantees issued	17.0	13.3
<b>Total</b>	<b>21.4</b>	<b>14.4</b>

Contingent liabilities are presented in accordance with the best estimate of the amount of liability.

Uponor is involved in several judicial proceedings, in various countries. The Group believes at the moment that the outcome of these disputes will not have a material effect on the Group's result or financial position.

## 26. Financial risk management

Financial risk management aims to ensure Uponor Group's sufficient liquidity in a cost-efficient manner and to minimise any adverse effects on the Group's financial performance caused by uncertainties in the financial markets. The general operating principles of financial risk management are defined in the Group Treasury Finance policy, approved by the Board.

At practical level Group's Treasury activities are governed by Treasury Committee. Treasury Committee is chaired by the Group CFO, and its other members are the Group's President and CEO and Vice President, Treasury. The Treasury Committee is responsible for steering and supervising practical financial risk management. For the purposes of risk management, Uponor uses only such financial instruments whose market value and risk profile can be monitored reliably and continuously, and which are tradable. Hedging transactions related to, for instance instrument, foreign currency, interest rate, liquidity and counterparty risks, are carried out in accordance with the Group Hedging Policy.

The management of financial risk is centralised into parent company and Group Treasury, which also operates as the Group's internal bank. Group Treasury's financial risk management duties include identifying, assessing and covering the Group's financial risks. The Treasury is also responsible for external market transactions related to financial assets and risk management. Providing Group companies with consultation and services within financing belongs to the scope of Group Treasury as well.

### Currency risk

Due to its international operations, the Group is exposed to currency risks arising from, for instance, currency-denominated accounts receivable and payable, intra-Group transactions, currency-denominated financing, deposits and bank account balances. According to the Group hedging policy, subsidiaries hedge all relevant transaction risks with the Group Treasury, using internal forward transactions. Group Treasury is responsible for assessing net positions and hedging them in external currency markets. Currency forward agreements and options are main instruments used in external hedging. Typically, the maximum duration of used foreign exchange contracts is one year.

Subsidiaries forecast their foreign currency cash flows monthly for the following 12 month period. In accordance with the Group hedging policy, they hedge the relevant portion of their net foreign currency cash flows. In addition to the euro, other main invoicing currencies are US dollar (USD), Swedish krona (SEK), Canadian dollar (CAD) and Danish krone (DKK). On 31 December 2021, these currencies accounted for 70.1 (70.0) per cent of the Group's external accounts receivable. Costs arising from the Group's own production in the United States and Sweden are used as natural hedges against sales in the mentioned currencies.

**Group's currency risk position at 31 Dec 2021**

M€	EUR/PLN	EUR/USD	USD/CAD	EUR/NOK	EUR/DKK	Total
Gross exposure	7.7	123.7	-8.9	-0.2	13.8	136.1

Net exposure	-10.6	-5.7	6.1	-6.6	16.9	0.1

SENSITIVITY ANALYSIS (+/- 10%)	EUR/PLN	EUR/USD	USD/CAD	EUR/NOK	EUR/DKK	Total
Income statement	1.1	0.6	0.6	0.7	1.7	4.7

**Group's currency risk position at 31 Dec 2020**

M€	EUR/PLN	EUR/SEK	USD/CAD	EUR/NOK	EUR/DKK	Total
Gross exposure	1.9	-3.8	-7.8	0.3	7.5	-1.9
Hedged	-8.7	-1.1	12.0	-6.3	4.2	0.1
Net exposure	-6.8	-4.9	4.2	-6.0	11.7	-1.8

SENSITIVITY ANALYSIS (+/- 10%)	EUR/PLN	EUR/SEK	USD/CAD	EUR/NOK	EUR/DKK	Total
Income statement	0.7	0.5	0.4	0.6	1.2	3.4

The exposure presented includes only financial instruments as defined by IFRS 7. An exposure is a net of all the financial assets and liabilities nominated in foreign currencies outstanding on the balance sheet date. The exposure does not include any forecasted sales and purchases that are not yet on the balance sheet. The presented foreign exchange risk sensitivity analysis illustrates the impact of a 10 per cent change in exchange rates on the income statement in euro.

Translation risks arise when the currency denominated assets and liabilities of subsidiaries located outside the euro area are exposed to currency fluctuations and these assets, and liabilities are translated into the parent company's reporting currency, the euro. The most important balance sheet items in foreign currency are in the US dollar (USD). Translation risk affects the reported profit and key ratios through changes in the balance sheet, but not the cash flow. According to the Group hedging policy, such non-euro denominated balance sheet items are not hedged, except for non-euro denominated internal loans, which are hedged in full.

**Interest rate risk**

Interest rate risk arises when changes in market interest rates influence financing costs, returns on financial investments and valuation of interest-bearing balance sheet items. Group Treasury is responsible for managing interest rate risks within the framework specified by Group Treasury policy, with the aim of balancing the interest rate position and optimising interest rate risks.

In order to manage interest rate risks, Uponor Group's funding is executed by using both fixed and floating interest rate loans and financial instruments. Currently all the external loans are based on floating interest rates. The duration of the interest rate position is managed by choosing loans with different interest rate periods. Different derivative instruments, such as interest rate swaps, forward rate agreements and interest rate options can also be used. Group Treasury is also responsible for matching external financial items and the duration of balance sheet items funded by such items. Short-term money market investments expose the Group to cash flow interest rate risks, but the overall impact of such investments is insignificant.

Financial instruments' sensitivity to fluctuations in market interest rates, as stated in the standard IFRS 7, is as follows: the impact of an interest rate increase or decrease of one percentage point is  $-/+ \text{€}0.5$  (1.0) million to the income statement and  $+/- \text{€}0.3$  (0.8) million to shareholders' equity. The impact is calculated before taxes. The interest position impacting income statement consists of floating rate interest-bearing financial liabilities and assets, interest rate options and interest rate swaps where hedge accounting is not applied. The impact on shareholders' equity results from the fair value change of the interest rate swap under cash flow hedge accounting.

**Liquidity and refinancing risk**

Liquidity and refinancing risk arises when a company is not able to arrange funding at reasonable terms and conditions, or at all. Uponor seeks to ensure availability and flexibility of financing through a balanced distribution of loan maturities, utilisation of various types of funding, multiple sources and by maintaining adequate credit limit reserves. The Group's liquidity is managed through efficient cash management and by investing solely in low-risk instruments, that can be liquidated rapidly and at a clear market price.

Group Treasury is responsible for the co-ordination of Group funding through the parent company. In exceptional cases, mainly for practical or legal reasons, Group Treasury can establish local working capital credit lines or loan structures in the name of a subsidiary, guaranteed by the parent company.

The most significant existing funding programmes on 31 December 2021 included:

- Bilateral term loan of €40 million maturing in 2026
- Bilateral term loan of €30 million maturing in 2026
- Four committed bilateral revolving credit facilities totalling €200 million of which €50 million maturing in 2022, €100 million maturing in 2023 and €50 million maturing in 2026.

None of the committed bilateral revolving credit facilities were used during the reporting period.

In addition, the Group has a domestic commercial paper programme totalling €150 million and €35.0 million of cash pool limits. At the end of the reporting period, the Group did not have any issued outstanding commercial papers. No cash-pool limits were used.

At the end of the reporting period, the Group had a total of €98.1 (138.0) million in cash and cash equivalents.

### Contractual maturity of financial liabilities at 31 Dec 2021

\*) under hedge accounting

### Counterparty and credit risk

The counterparty risk related to financial instruments has been defined as the risk of the counterparty being unable or unwilling to fulfil its contractual obligations.

In order to minimise counterparty risks, the Group invests its cash reserves and makes derivative contracts using only counterparties who meet the Group's criteria for creditworthiness. The Group did not suffer any significant credit losses in its normal business operations during the financial year. The maximum counterparty risk is the book value of financial assets on 31 December 2021.

Potential concentrations of credit risk with respect to trade and other receivables are limited due to the large number and geographic dispersion of companies that comprise the Group's customer base. Customer credit limits are established and constantly monitored, and the evaluation of customers' financial conditions is performed on an ongoing basis. Most of Uponor's accounts receivable are secured by credit insurance. Group's expected credit loss is evaluated based on trade receivables of the lifetime expected credit losses according to IFRS 9. Group has analysed individually receivables, which are under juridical proceedings and has decided not to combine these credit loss provisions into expected credit loss model. Group's total credit loss provision is combination of individual cases provisions and evaluated expected credit loss, which is calculated separately for insured and uninsured receivables. The probability of a credit loss is calculated by the percentage determined for each age group by the specified percentages based on historically realised payments and recorded historical credit loss, in addition to which the Group has anticipated the increase in credit losses and has taken into account changes in the probability of credit losses. The simplified approach is used for evaluation.

### The aging of accounts receivable

M€	2021		2020	
	Trade receivables	Expected uncollectible	Trade receivables	Expected uncollectible
Not yet due	181.7	0.0	144.6	0.0
Overdue 1-30 days	18.9	0.0	14.2	0.0
Overdue 31-60 days	2.2	0.0	1.9	0.0
Overdue 61-90 days	1.1	0.0	0.6	0.0
Overdue over 90 days	3.0	0.1	2.3	0.1
<b>Total</b>	<b>206.8</b>	<b>0.2</b>	<b>163.6</b>	<b>0.2</b>
Provision for impairment based on individual analyses		0.9		1.1
<b>Total</b>		<b>1.1</b>		<b>1.3</b>

### Commodity price risk

In its business operations, the Group is exposed to raw material price risks including materials like plastics, aluminium, copper, zinc as well as electricity price risks. Such price risks are managed through long-term fixed-price supply contracts, whenever financially feasible.

Group Treasury is responsible for managing electricity price risks at the Nordic level within the framework defined in the Group hedging policy. Hedging targets are achieved mainly by using financial electricity derivative contracts. The Group applies hedge accounting to the electricity derivatives. Sourcing is responsible for the electricity price hedging with fixed price supply contracts in Germany.

The table below presents the sensitivity of open electricity derivatives to fluctuations in electricity prices should the market price of electricity increase or decrease by 10 per cent, while other factors are expected to remain unchanged. These figures are calculated before taxes. Electricity derivatives recorded at fair value affect the profit and loss statement. Any changes in the value of electricity derivatives that meet the criteria for hedge accounting as set forth in IFRS 9 have an impact on shareholders' equity.

M€	2021	2020
Change in shareholders' equity	+/- 0.7	+/- 0.5

## 27. Derivative contracts and hedge accounting

Nominal value M€	2021	2020
Interest rate derivatives:		
Interest rate swaps		
- under hedge accounting	50.0	50.0
Interest rate options		
- not under hedge accounting	20.0	20.0
Foreign currency derivatives:		
Forward agreements		
- not under hedge accounting	276.4	236.4
Currency options, bought	25.2	34.9
Currency options, sold	25.2	34.9
Commodity derivatives:		
Electricity derivatives		
- under hedge accounting	4.4	4.5
Energy, MWh	148,968	183,960

**Fair value**

	2021			2020		
	Positive fair value	Negative fair value	Net fair value	Positive fair value	Negative fair value	Net fair value
<b>M€</b>						
Interest rate derivatives:						
Interest rate swaps						
- under hedge accounting	-	-0.5	-0.5	-	-1.0	-1.0
Interest rate options						
- not under hedge accounting	0.3		0.3	0.1	-	0.1
Foreign currency derivatives:						
Forward agreements						
- not under hedge accounting	0.9	-1.3	-0.4	2.7	-0.9	1.8
Currency options, bought	0.2		0.2	1.1	-	1.1
Currency options, sold	-	-0.2	-0.2	-	0.0	0.0
Commodity derivatives:						
Electricity derivatives						
- under hedge accounting	2.8	-	2.8	0.4	-0.3	0.1

Changes in the fair values of electricity and interest rate derivatives designated as cash flow hedges are recognised in other comprehensive income to the extent that the hedge is effective.

From electricity derivatives a gain of €2.1 (a loss of €0.4) million was booked to other comprehensive income during the financial period.

From interest rate derivatives a gain of €0.5 (€0.1) million was entered into other comprehensive income during the financial period.

The tax impact has been taken into account in the amounts. No ineffectiveness has been booked.

**28. Capital management**

The purpose of the Group's capital management is to create an efficient capital structure in order to ensure normal operational preconditions and growth opportunities and, thereby, to increase long-term shareholder return.

In addition to investment decisions, dividend distribution is a key factor affecting the capital structure. The Group's long-term goal is to pay a basic dividend, which represents at least 50 per cent of annual earnings per share.

The Group's capital structure developments are monitored by means of gearing. Gearing is calculated by dividing net interest-bearing liabilities by total equity. Net interest-bearing liabilities include interest-bearing liabilities less cash and cash equivalents. The Group's target is to keep its average gearing between 40 and 80 per cent across quarters. In 2021, gearing average across quarters was 1.7 (28.6) per cent.

M€	2021	2020
Interest-bearing liabilities	119.0	153.0
Cash and cash equivalent	98.1	138.0
Net interest-bearing liabilities	20.9	15.1
Total equity	483.4	421.9
Gearing, %	4.3	3.6
Gearing across quarters, %	1.7	28.6

Group's financial agreements include typical covenant clauses regarding the gearing and interest cover ratio. The realised ratio levels have clearly fulfilled the covenant clauses.

## 29. Management incentive schemes and share-based payments

During the financial year 2021 Uponor's share-based plans had the earning periods 2018–2020, 2019–2021, 2020–2022 and 2021–2023 in operation. In December, the Board decided on a new share-based plan for the performance period 2022–2024 but no costs were recognised in 2020. In the plans Uponor shares can be earned on the basis of performance criteria set for the performance period. The purpose of the plans is to retain key management, as well as to motivate and reward the management for good performance that supports the Group's profitability and the implementation of the Group's strategy. The targets for the earning periods launched since 2015 are mainly based on consolidated three-year cumulative Net Sales and three-year EBITDA or EBITDA-based intrinsic value. The plans also encourage the key management to further acquire and own Uponor's shares, which will contribute to aligning the interests of the management, the company and the shareholders. Key characteristics and terms of Uponor share-based plans are listed in the table below. The amounts include the cash portion intended for taxes arising from the reward to the participant.

Performance Share Plan	2019–2021	2020–2022	2021–2023
Maximum amount, pcs	600,000	600,000	450,000
Launch date	19.12.2018	16.12.2019	15.12.2020
Start of the earning period	1.1.2019	1.1.2020	1.1.2021
Vesting date	30.4.2022	30.4.2023	30.4.2024
Maximum contractual life, yrs	3.3	3.3	3.3
Remaining contractual life, yrs	0.3	1.3	2.3
Number of persons at the end of the reporting year	33	38	41
Payment method	Shares and cash	Shares and cash	Shares and cash
Maximum amount outstanding at the end of the period	343,000	400,920	326,745

The fair value of share-based incentives have been determined at grant date and is expensed until vesting. The pricing of the share-based incentives granted during the period was determined by the following inputs and share-based incentives had the following effect:

### Valuation parameters for instruments granted during period

Share price at grant, €	18.86
Expected dividends per year, €	1.68
Fair value per share, €	17.18

### Effect of Share-based Incentives on the result and financial position during the period

M€	2021	2020
Expenses for the financial year, share-based payments, equity-settled	4.0	2.4
Estimated amount of taxes to be paid in the plans 31 December	9.4	5.6

## 30. Interests in subsidiaries and non-controlling interests

Subsidiaries are listed in the note 31 Related party transactions.

Uponor Corporation's subsidiary Uponor Infra Oy has material non-controlling interest as a result of its ownership structure. Uponor Corporation has control in Uponor Infra Oy through the 55.3 per cent direct ownership and the voting ownership by holding the Chair position in the board of directors of Uponor Infra Oy. KWH Group Ltd has 44.7 per cent ownership in Uponor Infra Oy. Uponor Infra Oy is a parent company of a subgroup and its consolidated financials are presented below. The structure of this subgroup is presented in the list of subsidiaries.

### Financial information on subsidiaries, which has significant non-controlling interest

	Location	Non-controlling interest, proportion of ownership		Profit for the period attributable to non-controlling interest, M€		Equity attributable to non-controlling interest, M€	
		2021	2020	2021	2020	2021	2020
Uponor Infra Oy	Finland, Helsinki	44.7%	44.7%	6.5	7.5	68.7	65.1

**Financial information on Uponor Infra Oy's consolidated financial statements:**

<b>M€</b>	<b>2021</b>	<b>2020</b>
Net sales	286.8	252.0
Profit for the period	14.6	16.7
Total comprehensive income for the period	14.2	17.0
Profit for the period	14.6	16.7
- Equity holders of parent company	8.1	9.2
- Non-controlling interest	6.5	7.5
Total comprehensive income for the period	14.2	17.0
- Equity holders of parent company	7.9	9.4
- Non-controlling interest	6.4	7.6
Non-current assets	68.8	67.9
Current assets	152.8	125.6
Shareholders equity	144.2	136.0
Non-current liabilities	5.5	4.9
Current liabilities	71.9	52.6
Cash flow from operations	13.2	28.7
Cash flow from investments	-8.7	-12.6
Cash flow from financing	-4.7	-16.9
Total cash flow	-0.2	-0.8

In 2021, Uponor Infra Oy paid €6.0 (3.0) million dividend to its owners.

**31. Related party transactions**

Uponor Group's related parties include subsidiaries and associates as well as Board members, the President and CEO, and Executive Committee members.

The related party transactions disclosed consist of transactions carried out with related parties that are not eliminated in the consolidated financial statements.

**Executive Committee and Board remuneration**

<b>Executive Committee remuneration, T€</b>	<b>2021</b>	<b>2020</b>
Remuneration	3,063.8	2,263.7
Termination benefits	1,602.3	-
Post-employment benefits		
- defined contribution plans	485.2	367.8
Share based benefits	234.1	464.1
<b>Total</b>	<b>5,385.3</b>	<b>3,095.6</b>

Executive Committee remuneration includes salaries, fringe benefits and short-term incentives.

Post-employment benefits include expenses accrued in accordance with local legal pension arrangements for the members of the Executive Committee and expenses related to defined contribution pension insurances taken in addition to the President and CEO. The Group does not have any other commitments related to post-employment benefits.

Share-based benefits include payments relating to management long-term incentive schemes (further details in the note 29).

Remuneration of the President and CEO is also included in the table presented above.

	<b>2021</b>	<b>2020</b>
<b>Executive Committee remuneration: the President and CEO, T€</b>		
Luomakoski Jyri, President and CEO until 20 August 2021	770.1	650.6
Termination benefits, Luomakoski Jyri, President and CEO until 20 August 2021	1,602.3	-
Rauterkus Michael, President and CEO from 21 August 2021	208.7	-
<b>Shares received by the executive committee (number)</b>		
Luomakoski Jyri, President and CEO until 20 August 2021	-	6,207
Rauterkus Michael, President and CEO from 21 August 2021	-	-
Other members of Executive Committee	15,444	15,506
<b>Total</b>	<b>15,444</b>	<b>21,713</b>

The retirement age of the President and CEO will be determined in accordance with the Employees' Pensions Act (TyEL), however the Group and the President and CEO may agree for the President and CEO to retire at the age of 63 years. The Group has also paid defined contribution supplementary pension for the President and CEO €62,925 until 20 August 2021 and €41,848 from 21 August 2021.

### Board remuneration

	2021		2020	
	Gross annual fee (T€)	Shares received (number)	Gross annual fee (T€)	Shares received (number)
Paasikivi Annika, Chair	112.8	1,392	105.0	2,352
Aaltonen-Forsell Pia, Chair of the Audit Committee	63.6	788	60.9	1,333
Falk Johan, Audit Committee until 13 March 2020	55.0	711	52.9	1,202
Lengauer Markus	62.4	788	58.5	1,333
Lindholm Casimir	57.4	711	53.5	1,202
Marchi Michael, from 16 March 2020, Audit Committee from 16 March 2020	59.8	711	51.1	1,202

## 32. The impacts of COVID-19

The outlook for 2022 continues with uncertainties around the next phases of the COVID-19 pandemic even though good progress has been made in vaccination coverage in Uponor's operating area. The prevailing situation poses short-term challenges to Uponor's supply chain and own production, which may cause supply shortages and delays in deliveries. Continued uncertainty among businesses may negatively affect the initiation of new construction and renovation projects, though the relative impact and timing of this effect is uncertain.

Supported by its strong balance sheet and cash position, Uponor is in a solid financial position to face the possible next phases of the pandemic and their implications. The pandemic has not had an impact on the valuation of Uponor's assets.

## 33. Events after the balance sheet date

On 10 January 2022, Uponor announced that Bill Gray, President, Building Solutions – North America and a member of Uponor's Executive Committee will leave his position on the Executive Committee and the President as of 10 January 2022. John Reutter, Vice President, Finance, Building Solutions – North America was appointed interim President, Building Solutions – North America and an interim member of Uponor's Executive Committee as of the same day.

# Notes to the parent company financial statements

## 1. Accounting Principles

The Parent Company's Financial Statements have been prepared according to Generally Accepted Accounting Principles in Finland. Uponor Group's financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), and the parent company observes the Group's accounting policies whenever this has been possible. Presented below are the accounting policies in which the practice differs from the Group's accounting policies. In other respects, the Group's accounting policies are applied.

### Net Sales

Parent Company's business consists of Group functions and turnover of the service charges to the Group companies.

### Income taxes

Income taxes presented in the income statement consist of accrued taxes for the financial year and tax adjustments for prior years.

### Loan arrangement fee

Loan arrangement fee has been accrued linearly to current assets.

### Pension arrangements

The Company's pension liabilities are handled through a pension insurance company. All expenses incurred in pension benefits are recorded as expenses in the period during which the corresponding work was performed.

### Financial assets, financial liabilities and derivative contracts

Derivatives are measured at their fair value, which are based on market prices on the closing day in accordance with section 5.2 of the Finnish Accounting Act. Changes in the value of derivatives are recorded as gain or loss through profit and loss as financial income and expenses. Parent company does not apply hedge accounting. Otherwise the methods of measuring derivative contracts are explained in the section on the Group's accounting standards. The fair values of different derivative groups are shown in the note 18. Changes in the fair value of different derivative groups are shown in the Note 6. The use of derivatives is described in the note 26 in Group notes to the consolidated financial statements.

### Leases

All leasing payments have been treated as rental expenses.

### Shares in group companies

The balance sheet value of shares in group companies consists of historical costs less impairments.

## 2. Net turnover

# Proposal of the Board of Directors

The distributable funds of the parent company, Uponor Corporation are € 201,453,251.28, of which profit for the period is € 69,445,090.46.

The Board of Directors proposes to the Annual General Meeting that

-a dividend of € 0.67 per share will be paid, at maximum	€ 48,623,734.46
-the remainder be retained in the shareholders' equity	€ 152,829,516.82
	€ 201,453,251.28

The company's financial situation has not changed materially after the closing day. The company's liquidity is good. The Board of Directors' view is that the proposed profit distribution does not risk the company's liquidity.

# Auditor's report

To the Annual General Meeting of Uponor Oyj

## Report on the Audit of Financial Statements

### Opinion

We have audited the financial statements of Uponor Oyj (business identity code 0148731-6) for the year ended 31 December 2021. The financial statements comprise the consolidated balance sheet, statement of comprehensive income, statement of changes in equity, statement of cash flows and notes, including a summary of significant accounting policies, as well as the parent company's balance sheet, income statement, statement of cash flows and notes.

In our opinion

- the consolidated financial statements give a true and fair view of the group's financial position, financial performance and cash flows in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU
- the financial statements give a true and fair view of the parent company's financial performance and financial position in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements.

Our opinion is consistent with the additional report submitted to the Audit Committee.

### Basis for opinion

We conducted our audit in accordance with good auditing practice in Finland. Our responsibilities under good auditing practice are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the parent company and of the group companies in accordance with the ethical requirements that are applicable in Finland and are relevant to our audit, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

In our best knowledge and understanding, the non-audit services that we have provided to the parent company and group companies are in compliance with laws and regulations applicable in Finland regarding these services, and we have not provided any prohibited non-audit services referred to in Article 5(1) of regulation (EU) 537/2014. The non-audit services that we have provided have been disclosed in note 4 to the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Materiality

The scope of our audit was influenced by our application of materiality. The materiality is determined based on our professional judgement and is used to determine the nature, timing and extent of our audit procedures and to evaluate the effect of identified misstatements on the financial statements as a whole. The level of materiality we set is based on our assessment of the magnitude of misstatements that, individually or in aggregate, could reasonably be expected to have influence on the economic decisions of the users of the financial statements. We have also taken into account misstatements and/or possible misstatements that in our opinion are material for qualitative reasons for the users of the financial statements.

### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The significant risks of material misstatement referred to in the EU Regulation No 537/2014 point (c) of Article 10(2) are included in the description of key audit matters below.

We have also addressed the risk of management override of internal controls. This includes consideration of whether there was evidence of management bias that represented a risk of material misstatement due to fraud.

**The key audit matter**

**How the matter was addressed in the audit**

Valuation of goodwill (refer to accounting principles for the consolidated financial statements and note 10)

At the end of the financial year, the group had EUR 96 million of goodwill.

Goodwill is tested for impairment when indicators of impairment exist, or at least annually. Goodwill impairment testing is conducted by comparing the carrying value with the recoverable amount using a discounted cash flow model.

Determining the key assumptions used in the impairment tests requires management judgement and estimates especially relating to long term growth, profitability and discount rates.

Valuation of goodwill is considered a key audit matter due to the significant carrying values and high level of management judgement involved.

We assessed the impairment tests prepared by the Company.

Our detailed audit work with the involvement of KPMG valuation specialists included testing the integrity of the calculations and the technical model.

We challenged the assumptions used by management in respect of forecasted growth rates and profitability as well as the appropriateness of the discount rates used. We also validated the assumptions used in relation to market and industry information.

We also evaluated the cash flows used by comparing them to the group's budgets, to the strategic plans and the understanding we gained from our audit.

Furthermore, we have considered the adequacy of the group's disclosures in respect of the impairment testing.

**The key audit matter**

**How the matter was addressed in the audit**

Revenue recognition (refer to accounting principles for the consolidated financial statements and note 2)

Group's revenue is generated in multiple markets with different contractual terms. Revenue is composed of sales of manufactured goods and rendering of services including project business and water monitoring services.

The revenue earned from the sale of goods is recognised when the control associated with ownership is transferred to the buyer in accordance with the terms of delivery and customer acceptance. Revenue for rendering of services including project business is recognised over time.

In general, revenue recognition within the group is not complex, but the large volumes of transactions and the fact that the revenue is generated through subsidiaries in different countries and markets makes revenue recognition an area of focus in the audit and is therefore determined as a key audit matter.

We have assessed group's revenue recognition principles in relation to IFRS standards and appraised overall view on revenue recognition and compliance with group revenue recognition principles.

During our audit we have focused on determination of performance obligations, timing of revenue recognition, variable considerations in relation to rebates, returns, and refunds including judgements made by the management.

We have performed testing of internal controls related to revenue recognition as well as performed substantive procedures such as testing of sales agreements and year-end transactions (cut-off and accruals).

### Responsibilities of the Board of Directors and the President and CEO for the Financial Statements

The Board of Directors and the President and CEO are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU, and of financial statements that give a true and fair view in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements. The Board of Directors and the President and CEO are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors and the President and CEO are responsible for assessing the parent company's and the group's ability to continue as going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting. The financial statements are prepared using the going concern basis of accounting unless there is an intention to liquidate the parent company or the group or cease operations, or there is no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance on whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with good auditing practice will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with good auditing practice, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the parent company's or the group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Board of Directors' and the President and CEO's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the parent company's or the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the parent company or the group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events so that the financial statements give a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Other Reporting Requirements

### Information on our audit engagement

We were first appointed as auditors by the Annual General Meeting on March 16, 2020, and our appointment represents a total period of uninterrupted engagement of 2 year.

### Other information

The Board of Directors and the President and CEO are responsible for the other information. The other information comprises the report of the Board of Directors and the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. We have obtained the report of the Board of Directors prior to the date of this auditor's report, and the Annual Report is expected to be made available to us after that date.

Our opinion on the financial statements does not cover the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. With respect to the report of the Board of Directors, our responsibility also includes considering whether the report of the Board of Directors has been prepared in accordance with the applicable laws and regulations.

In our opinion, the information in the report of the Board of Directors is consistent with the information in the financial statements and the report of the Board of Directors has been prepared in accordance with the applicable laws and regulations.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Other opinions

We support that the financial statements should be adopted. The proposal by the Board of Directors regarding the treatment of distributable funds is in compliance with the Limited Liability Companies Act. We support that the Board of Directors of the parent company and the President and CEO should be discharged from liability for the financial period audited by us.
